

Editorial Editorial

Dear Reader,

Over the past few years since the inception of *Spine Deformity*, the Continuing Medical Education Committee of Scoliosis Research Society had been partnering with the journal in an effort to provide continuing medical education credit to readers for various articles. After Volume 6, Issue 6, we regret to inform you that we will discontinue the CME program for the journal due to a low return on usage. We will continue to offer the credit for the articles already marked for CME until one year passes from the time the quizzes were published. Perhaps the low utilization of answering questions for CME credit is simply a reflection of change in ways people earn credit through other online venues that have emerged in recent years. The committee will seek other ways to provide outstanding learning opportunity to the journal readership as we continue to make *Spine Deformity* the premier journal for topics related to spinal deformity.

Sincerely,

Sam Cho
Chair, CME Committee
Scoliosis Research Society
