CORRIGENDA

GENERALIZED UNCERTAINTY PRINCIPLE FOR QUANTUM FIELDS IN CURVED SPACETIME

Lawrence B. Crowell

A few typographic errors occurred in the above-titled paper by Lawrence B. Crowell in *Found. Phys. Lett.* **12**, 6 (1999). The first two are due to familiarity with standard notation. The generalized creation operator defined in the text before Eq.(11) appeared as

$$\alpha^\dagger = 1/\sqrt{2}(x - ip).$$

However, the creation operator defined by Eq. (8) means that this should read

$$\alpha^c = 1/\sqrt{2}(x - ip).$$

Similarly, the commutator in the text before Eq. (17), which appears as

$$S(z)[\alpha_j, \alpha_k^\dagger]S^\dagger(z),$$

should read

$$S(z)[\alpha_j, \alpha_k^c]S^\dagger(z).$$

Finally, the left-hand side of Eq. (17) should be written as

$$[\beta_j, \beta_k^c].$$
