

Erratum

Larry Wos: ‘The kernel strategy and its use for the study of combinatory logic’,
Journal of Automated Reasoning **10**(3) (1993), 287–343.

Geoff Sutcliffe points out that an error exists on p. 318, where the strong fixed point for B and H is given as

$$B(B(H(B(BH)(BB))(H(BH)(BB))H)B)B$$

The correct fixed point is

$$B(B(H(B(BH(BB))(H(BH(BB))))H)B)B$$
