Breast Cancer Research and Treatment **85**: 263–270, 2004.

The numbers for ‘Yes’ and ‘No’ under ‘Endocrine therapy’ in Table 1 (continued, p. 265) of the original were presented the wrong way around. The right numbers are given below.

Yes 831 (78%)

No 225 (21.1%)

The sentence of line 16 below Table 1 (p. 265) should also be changed to ‘... 78% had endocrine therapy.’
