M. L. Sousa and C. S. Oliveira: Hazard Mapping Based on Macroseismic Data Considering the Influence of Geological Conditions, *Natural Hazards* 14, Nos. 2–3 (1996/1997), pp. 207–225.

Due to a technical error which occurred during the production of this article, the right-hand map of Figure 11, on page 223, was regrettably omitted. The correct, full version of the figure is printed below.

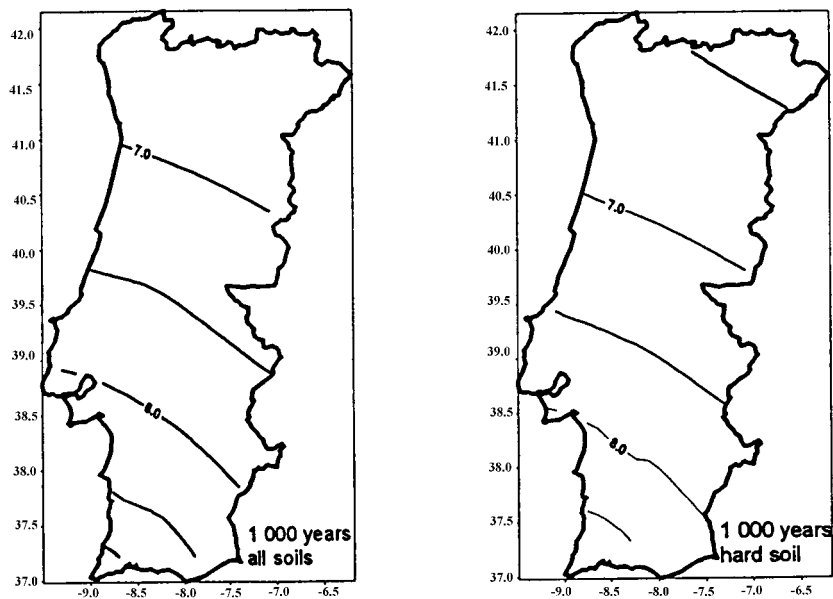

Figure 11. Seismic hazard map for 1000 years return period without soil segmentation (left) and considering only hard soil attenuation law (right).
