

Erratum

The catalytic influence of clays on Bamberger rearrangement: unexpected formation of *p*-nitrosodiphenyl amine from *N*-phenylhydroxylamine, Kannan P. Naicker, Kasi Pitchumani and Rajender S. Varma, Catal. Lett. 54 (1998) 165.

The title should read: The catalytic influence of clays on Bamberger rearrangement: unexpected formation of azoxybenzene from *N*-phenylhydroxylamine

p. 166: The final structure and scheme are incorrect. The correct final structure and scheme are as follows:

p. 167: Melting point should read as follows: 34–35 °C (lit. 36 °C) [16].
