

CONTENTS OF VOLUME 114 (2002)

Vol. 114, No. 3, 2002

On J_k -integral vector for bi-piezo-electric materials	Q. LIU	L3–L8
Announcement of a round robin on the analysis of the peel test	B. COTTERELL, G. WILLIAMS, J. HUTCHINSON and M. THOULESS	L9–L13
On the tailoring of microstructures for prescribed effective properties	T.I. ZOHDI	L15–L20

Vol. 114, No. 4, 2002

Correlation between elastic and electric and electric properties for metal foams: theory and experiment	I. SEVOSTIANOV, J. KOVÁIK and F. SIMANÍK	L23–L28
Crack-tip toughness from wide-range COD measurements	T. FETT	L29–L32
A microscopic mechanism of fatigue crack growth based on the dislocation-free zone	M. JUN and S. YI	L33–L37
