Vacation models in discrete time - Erratum

Attahiru Sule Alfa

Department of Electrical & Computer Engineering
University of Manitoba, Winnipeg, Manitoba, Canada, R3T 5V6.
(`alfa@ee.umanitoba.ca`)

The subscripts of the equation on page 12 of [1] should be adjusted and the equation should read as follows:

$$R_k = A_{k,k+1} + R_k A_{k+1,k+1} + R_k[R_{k+1}A_{k+2,k+1}], \quad k \geq 0,$$

and the range for the G_k equation of page 13 should be $k \geq 1$.
