Presents revisions analysis to quarterly current account balance of payments data as an update of the previously published August 2005 Economic Trends article.

This article presents the analysis of revisions made to Balance of Payments quarterly current account data between 1998 Q4 and 2003 Q3, and is an update of the previous article published in the August 2005 issue of Economic Trends. It focuses on revisions to current account credits and debits and how these influence revisions to the current account balance.
