The Nanyang Business School is one of Asia's top business schools. Its flagship programme is the Nanyang MBA, which has consistently been ranked one of the top in Asia and is ranked in the world top 100 by Economist intelligence unit, 2005.

Asia Journalism Fellowship

Subjects: The fellowship is awarded in journalism at NTU's Wee Kim Wee School of Communication and Information

Eligibility: At least five years of professional journalism experience, not including student journalism, who are currently working as a journalist. Freelancers are eligible, if journalism is their main activity. Applicants should be residing in Asia and should be able to operate in English which is the working language of the programme. Journalists working in non-English media are welcomed, but they will have to show their proficiency in English through a telephone interview. Permission is required from their employers to be away for the full three months of the Fellowship

Type: Fellowship

Value: Stipend of Singaporean \$1,500 per month for the duration of the three month programme. Travel to and from Singapore will also be covered. There is no extra funding for spouses and children to visit. Free accommodation is provided in service apartments. Two or three Fellows share one apartment with kitchen to cook meals. Fellows will have access to the library, computer, internet and athletic facilities of the NTU campus. NTU will apply for Training Employment Passes for the Fellows to come to Singapore. Any visiting family members must handle their own entry permit applications

Country of Study: Singapore

Application Procedure: The mode of applying is electronically (send to applications@ajf.sg) or by post. For detailed information, please visit the website

Closing Date: 25 October

Contributor: Temasek Foundation and Nanyang Technological University

Additional Information: The Fellowship brings around 15 journalists from across Asia to Singapore for three months

Hubble Fellowships for Postdoctoral Scientists

Purpose: The Hubble Fellowship Program provides an opportunity for highly qualified recent postdoctoral scientists to conduct independent research that is broadly related to the NASA Cosmic Origins scientific goals as addressed by any of the missions in that program: the Hubble Space Telescope, Spitzer Space Telescope, Stratospheric Observatory for Infrared Astronomy (SOFIA), the Herschel Space Observatory, and the James Webb Space Telescope. The research will be carried out at United States Host Institutions chosen by each Fellow

Eligibility: Applicants must have received a PhD or equivalent doctoral-level research degree in astronomy, physics, or a related discipline on or after 1 January (previous year). Graduate-student awardees who have not yet received their doctoral degree at the time of application must present evidence of having completed all requirements for the degree before commencing their Fellowships. Hubble Fellowships are open to citizens of the United States and to English-speaking citizens of other countries. Qualified applicants will receive consideration without regard to race, creed, color, age, gender, or national origin. Women and members of minority groups are strongly encouraged to apply. Incomplete applications and/or applications received after the deadline will not be considered

Type: Fellowship

Value: An annual stipend of approx. US\$67,000 plus benefits, and an additional allowance of US\$16,000 per year for travel and other research costs. Funding will be provided initially for the first year of the Fellowship. Renewals for the second and third years will depend on annual performance reviews

Length of Study: Up to 3 years

Frequency: Annual

Country of Study: United States of America

Closing Date: 6 November

Additional Information: The Hubble Fellowship Program is administered for NASA by the Space Telescope Science Institute (STScI), operated by the Association of Universities for Research in Astronomy, Inc., working in cooperation with astronomical institutions throughout the United States. Awards will be made to support each Hubble Fellow through a designated Host Institution

The National Association of Teachers of Singing (NATS) is now the largest association of teachers of singing in the world. NATS offers a variety of lifelong learning experiences to its members, such as workshops, intern programmes, master classes, and conferences, all beginning at the chapter level and progressing to national events.

National Association of Teachers of Singing Art Song Competition Award

Subjects: Singing

Purpose: To stimulate the creation of quality vocal literature through the cooperation of singer and composer

Eligibility: Open to any composer whose submitted work is a song cycle, group of songs, or extended single song of approximately 15 minutes in length (13–17 minutes acceptable); for single voice and piano; to a text written in English, for which the composer has secured copyright clearance (only text setting permission necessary); composed within the last 2 years, and who pays the competition entry fee

Type: Cash prize

Value: US\$2,000 plus the composer's expenses (US\$500 airfare reimbursement plus hotel) and US\$1,000, 2nd place

Study Establishment: Valdosta State University

Country of Study: United States of America

Application Procedure: check the website for further details

Closing Date: 1 December

Website: www.nbcf.org.au

The ultimate goal of the National Breast Cancer Foundation (NBCF) is to raise enough money to fund a cure for breast cancer. The NBCF supports and promotes research into breast cancer, facilitates consumer participation in all aspects of their work, acts as an advocate for breast cancer research, and provides opportunities for all Australians to contribute to breast cancer research.

National Breast Cancer Foundation Doctoral Scholarship

Subjects: All disciplines of breast cancer research

Purpose: To provide outstanding graduates with a strong interest in breast cancer research with an opportunity to pursue full-time PhD studies at an Australian University

Eligibility: Open to applicants who are permanent residents of Australia

Level of Study: Doctorate, Postgraduate, Research

Type: Scholarship

Value: Scholars will receive a stipend of approx. A\$33,240

Length of Study: 3 years

Frequency: Annual

Country of Study: Australia

No. of awards offered: 15

Application Procedure: The applications are judged under peer review by experts in the field for their scientific merit and contribution to either new knowledge or building on existing knowledge of breast cancer

Closing Date: See website

Funding: Foundation

Contributor: Australian community and corporate funding

No. of awards given last year: 4

No. of applicants last year: 15

For further information contact:

Email: ghan.gannon@nbcf.org.au

Contact: Lhan Gannon

Novel Concept Awards

Subjects: Oncology (Breast cancer research) and other novel ideas into Breast Cancer research

Purpose: To provide investigators with the opportunity to pursue serendipitous observations and explore new, innovative, and untested ideas

Eligibility: Open to applicants undertaking research in the entire continuum of breast cancer research. Residing in Australia throughout the funding period. Must meet all eligibility criteria outlined in guidelines and application form. Please check at www.nbcf.org.au

Level of Study: Unrestricted

Type: Research grant

Value: Maximum value of A\$100,000 per grant per year

Length of Study: 1–2 years

Country of Study: Australia

No. of awards offered: 35

Application Procedure: Please contact the Research Administrator or check the website for further details

Closing Date: 20 June

Funding: Foundation, Trusts

Contributor: NBCF, Australian Community and Corporate

No. of awards given last year: 12

No. of applicants last year: 35

Additional Information: Each year NBCF board will decide when to call for application and closing dates in late February

Pilot Study Grants

Subjects: Oncology (breast cancer research)

Purpose: To financially assist investigators to obtain preliminary data regarding methodology, effect sizes and possible findings relating to new research ideas relevant to breast cancer

Eligibility: Applicants must be Australian citizens, or be graduates from overseas with permanent Australian resident status, must reside in Australia throughout the funding period and not under bond to any foreign government

Level of Study: Research, Unrestricted
Type: Grant
Value: A maximum of A\$100,000 for up to 2 years
Length of Study: Up to 2 years
Frequency: Every 2 years
Country of Study: Australia
No. of awards offered: 76
Application Procedure: Check website for further details
Closing Date: 10 May
Funding: Foundation
Contributor: Australian Community and Corporate
No. of awards given last year: 3
No. of applicants last year: 76
Additional Information: NBCF Board will decide whether to offer this grant scheme again when they meet annual in late February

Website: www.nbr.org
Contact: George F Russell

NBR is a nonprofit, nonpartisan research institution dedicated to informing and strengthening policy. NBR conducts advanced research on politics and security, economics and trade, and health and societal issues, with emphasis on those of interest to the United States.

The Next Generation: Leadership in Asian Affairs Fellowship

Subjects: China's energy insecurity, military modernization in Asia, early health policy, central Asia's changing geopolitics, globalization or Chinese economic development, trends in Islamic education in South Asia, China–Southeast Asia relations

Purpose: To further the professional development of Asian specialists in the year just after the completion of their Master's degree

Eligibility: Open to citizens or permanent residents of the United States who have obtained a Master's degree

Level of Study: Research

Type: Fellowships

Value: Each fellow will receive a US\$32,500 fellowship award (with benefits), as well as a reimbursement for some relocation expenses

Length of Study: 1 year

Frequency: Annual

Country of Study: United States of America

Application Procedure: Candidates must submit an online cover letter, curriculum vitae, 750 word essay stating the purpose of applying and 3 written references

Closing Date: 15 January

Funding: Government, Corporation, Foundation

No. of awards given last year: 3

For further information contact:

Website: www.neh.gov

Contact: Programme Officer

National Endowment for the Humanities' (NEH) Research Division facilitates research and original scholarship in the humanities through grants to universities, centres for advanced study and individual scholars. NEH uses the following definition of the humanities: 'The humanities include, but are not limited to, language, both modern and classical, linguistics, literature, history, jurisprudence, philosophy, archaeology, comparative religion, ethics, the history, criticism and theory of the arts, aspects of social sciences which have humanistic content and employ humanistic methods, and the study and application of the humanities to the human environment with particular attention to reflecting our diverse heritage, traditions and history and to the relevance of the humanities to the current conditions of national life'.

**National Endowment for the Humanities
Fellowships**

Subjects: Projects which may contribute to scholarly knowledge, to the conception and substance of individual courses in the humanities, or to the general public's understanding of the humanities. Projects may address broad topics or consist of study and research in a specialised field

Purpose: To provide support for full-time research on projects that can be completed during the tenure of the award, as well as for work that is part of a long-term endeavour. Recipients usually produce scholarly articles, monographs on specialised subjects, books on broad topics, archaeological site reports, translations, editions or other scholarly tools

Eligibility: Open to faculty or staff members of colleges or universities, or of primary or secondary schools, or independent scholars or writers

Level of Study: Postdoctorate

Type: Fellowship

Value: US\$24,000 for six–eight month tenure and US \$40,000 for 9–12 month tenure

Length of Study: Varies

Frequency: Annual

Country of Study: Other

Application Procedure: Applicants must complete and submit an application form. Guidelines and application forms are posted on the NEH website

Closing Date: 1 May

Funding: Government

The National Health and Medical Research Council (NHMRC) (Australia) consolidates within a single national organization the often independent functions of research funding and development of advice. One of its strengths is that it brings together and draws upon the resources of all components of the health system, including governments, medical practitioners, nurses and allied health professionals, researchers, teaching and research institutions, public and private programme managers, service administrators, community health organizations, social health researchers and consumers.

National Health and Medical Research Council Equipment Grants

Subjects: All fields of medicine and dentistry

Purpose: To provide funding support for the purchase of items of equipment required for biomedical research

Eligibility: Open to individuals, groups or institutions which are normally eligible for NHMRC support. Grants will be made on the basis of scientific merit, taking into consideration factors including whether the applicants hold NHMRC grants, the institutional ranking of the application, and institutional or regional availability of major equipment

Level of Study: Unrestricted

Type: Grant

Value: A\$10,000 to cover the cost of equipment in excess of

Targeted Call for Research into Healthy Ageing of Aboriginal and Torres Strait Islander Peoples

Subjects: This TCR follows a public call for research priorities in Aboriginal and Torres Strait Islander health conducted

Purpose: The aim of implementing this call is to provide funding for rigorous, culturally-informed research into improving the health and experiences of ageing in older Aboriginal and Torres Strait Islander peoples. Quality evidence generated from research will allow for better planning, funding and implementation of policies and services to achieve and support healthy ageing for Aboriginal and Torres Strait Islander peoples

Eligibility: Applications for NHMRC funding are subject to the general eligibility requirements set out in the NHMRC Funding Rules. Additional eligibility requirements are in scheme-specific funding rules. Institutions must be an NHMRC approved Administering Institution to be eligible to receive and administer NHMRC funding - refer to the NHMRC website for a list of approved Administering Institutions

Level of Study: Graduate

Type: Grant

Value: Total value available is A\$5,000,000

Frequency: Annual

Country of Study: Any country

Application Procedure: Official website to apply electronically for the grant application is www.nhmrc.gov.au/grants-funding-administering-grants

Closing Date: 15 August

Funding: Private

Additional Information: Applications must be submitted electronically using NHMRC's online Research Grants Management System (RGMS). Official link for the following grant is www.nhmrc.gov.au/grants-funding-administering-grants

National Institute for Health and Care Excellence (NICE)

Level 1A, City Tower, Piccadilly Plaza, M1 4BT, Manchester, United Kingdom

Tel: (44) 300 323 0140

Fax: (44) 300 323 0149

Website: www.nice.org.uk

The National Institute for Health and Care Excellence (NICE) provides national guidance and advice to improve health and social care. NICE was originally set up in 1999 as the National Institute for Clinical Excellence, a special health authority, to reduce variation in the availability and quality of NHS treatments and care.

National Institute for Health and Care Excellence Scholarships

Subjects: NICE Foundation is the Educational Trust formed by intellectual and industries veteran with vision to prepare the next generations by providing excellent learning framework that prepares student to compute in a diverse world market

Purpose: NICE Scholarships are one-year opportunities for qualified health and social care professionals to find out about the inner workings of NICE and undertake a supported improvement project, related to NICE guidance, within their local organization

Eligibility: NICE Scholarships are typically awarded to specialist registrars, senior nurses, pharmacists and allied health professionals, service improvement leads, public health and social care specialists and health service managers. In addition to their project-based activities, NICE Scholars are

expected to act as local ambassadors for clinical and public health and social care excellence; promote the principles and the recommendations of NICE guidance-through teaching activities, for example

Type: Scholarship

Value: NICE Scholars are supported in their project via a series of workshops, access to a very experienced senior mentor and contact with the expert teams at NICE. NICE Scholars are not paid. NICE will, however, meet all reasonable expenses (e.g. travel, accommodation) incurred in the course of carrying out Scholarship activities

Length of Study: 1 year

Frequency: Annual

Country of Study: United Kingdom

Application Procedure: The mode of applying is by post

Closing Date: 1 November

Additional Information: Scholars are expected to devote approximately 7.5 hours per week to their Scholarship project. For detailed information, visit www.nice.org.uk/getinvolved/nice_fellows_and_scholars/scholars/NICEScholarships.jsp

National Institute of General Medical Sciences (NIGMS)

Contact: Ms Jilliene Drayton, Information Development Specialist

The National Institute of General Medical Sciences (NIGMS) is one of the National Institutes of Health (NIH), the principal biomedical research agency of the United States Federal Government. NIGMS supports basic research that increases understanding of biological processes and lays the foundation for advances in disease diagnosis, treatment, and prevention.

National Institute of General Medical Sciences Research Project Grants (R01)

Subjects: Biomedical sciences

Purpose: To support a discrete project related to the investigator's area of interest and competence

Eligibility: Research project grants may be awarded to nonprofit organizations and institutions; governments and their agencies; occasionally, though rarely, to individuals who have access to adequate facilities and resources for conducting the research; and to profit-making organizations. Foreign institutions and international organizations are also eligible to apply for these grants

Level of Study: Postgraduate

Type: Grant

Value: These grants may provide funds for reasonable costs of the research activity, as well as for salaries, equipment, supplies, travel and other related expenses

Frequency: Annual

Country of Study: United States of America

Application Procedure: Applicants must contact the Office of Extramural Outreach for details

Funding: Government

Additional Information: www.grants.nih.gov/supportwww.nigms.nih.gov/Research/Mechanisms/Pages/ResearchProjectGrants.aspx

National Road Safety Authority Individual Postdoctoral Fellowships (F32)

Subjects: Biomedical sciences

Purpose: NIGMS welcomes NRSA applications from eligible individuals who seek postdoctoral biomedical research training in areas related to the scientific programmes of the Institute

Eligibility: Open to applicants who have received the doctoral degree (domestic or foreign) by the beginning date of the proposed award

Level of Study: Postdoctorate

Type: Award

Value: NIGMS provides an annual stipend to postdoctoral fellows, and an institutional allowance to cover training-related expenses. The stipend, tuition/fees and institutional allowance are detailed at grants.nih.gov/grants/guide/notice-files/NOT-OD-14-046.html

Length of Study: Up to 3 years

Frequency: Annual

Study Establishment: The institutional setting may be domestic or foreign, public or private

Country of Study: Any country

Application Procedure: Applicants must write to the main address for details or telephone Dr Michael Sesma, at (1) 301 594 2772. Further details are also available from the website www.nigms.nih.gov

Closing Date: 8 April

Funding: Government

As one of the nation's premier repositories of biomedical information, the National Library of Medicine (NLM) has a vital interest in information management and in the enormous utility of computers and telecommunications for improving storage, retrieval, access and use of biomedical information. The Library offers support for qualified investigators, be they individuals or institutions, in three separate but related programme areas: medical informatics, biotechnology information and health sciences library and information science.

National Library of Medicine Fellowship in Applied Informatics

Subjects: Health informatics

Purpose: To improve the American healthcare system by supporting health science professionals (including librarians) whose primary interest is to put informatics into practice, develop modern information systems in traditional organisations, use the new information techniques in a specific field and help disseminate promising programmes and systems

Eligibility: Open to individuals with a BA, BSc, MA, MSc or PhD in a field related to health, who are United States nationals or permanent residents of the United States of America

Level of Study: Doctorate, Graduate, Postdoctorate, Postgraduate

Type: Fellowship

Value: Up to US\$58,000 per year, based on the salary or remuneration the individual would have been paid from their home institution

Length of Study: Varies

Frequency: Annual

Study Establishment: Universities, colleges, hospitals, laboratories, units of State and certain agencies of the Federal Government in the United States

Country of Study: United States of America

Application Procedure: Applications must be submitted by an organisation on behalf of the individual seeking the grant, on the standard grant application form PHS 416-1 (rev 8/95)

Closing Date: 5 April, 5 August, 5 December

Additional Information: The NLM encourages potential applicants to clarify any issues or questions. For enquiries regarding programmatic issues, please contact Mr Peter Clepper, Program Officer. For enquiries regarding Division of Nursing programmatic issues, please contact the Division of Nursing. For enquiries regarding fiscal matters, please contact Ms Shelley Carow, Grants Management Officer

National Library of Medicine Publication Grant Program

Subjects: Medical and health sciences

Purpose: To provide assistance for the preparation of book length manuscripts and, in some cases, the publication of important scientific information needed by United States health professionals

Eligibility: Open to public or private, non-profit institutions and individuals, who are involved in research

Type: Project grant

Value: US\$35,000 direct costs per year over a period of three years maximum

Length of Study: 1–3 years

Frequency: 3 times each year

Country of Study: United States of America

Application Procedure: Applications must be submitted on the PHS FORM 398 (Rev 5/95) grant application kit

Closing Date: 1 February, 1 June, 1 October

Additional Information: Potential applicants are strongly encouraged to discuss projects early with the Program staff, who will discuss programme status and experience with them, provide additional information in response to specific application plans and review draft proposals for completeness if desired. The National Research Foundation (NRF) is responsible for funding South African research and other expertise in the fields of the social, natural and applied sciences, humanities, engineering and technology. The NRF is funded by the government, but also pursues joint ventures and collaboration with industry and the international community to increase the impact of its activities.

Innovation Masters and Doctoral Scholarships

Subjects: The Innovation Masters and Doctoral funding instruments are part of the Innovation Bursary Scheme (IBS) funded by the Department of Science and Technology (DST) and managed by the National Research Foundation (NRF)

Eligibility: Scholarships are open to South African citizens, South African permanent residents as well as a limited percentage of non-South African citizens registered at a South African public university

Level of Study: Postgraduate

Value: Masters scholarships worth ZAR 80,000 per annum and doctoral scholarships worth ZAR 110,000 per annum

Country of Study: South Africa

Application Procedure: Please check website for more details

Closing Date: 7 August

Contributor: Funded by Department of Science and Technology (DST) and managed by the National Research Foundation (NRF)

Email: futurestudents@bournemouth.ac.uk

National Research Foundation Fellowships for Postdoctoral Research

Subjects: Natural and applied sciences, engineering, technology, social sciences and humanities

Purpose: To foster postdoctoral research in the natural and applied sciences, engineering, social sciences and the humanities

Eligibility: Open to any nationals who have received their PhD within the last 5 years

Level of Study: Postdoctorate

Type: Fellowship

Value: Up to ZAR 60,000 plus a contribution of ZAR 10,000 towards the running cost of the project

Length of Study: Up to 2 years

Frequency: Twice a year

Study Establishment: Any university, technikon or research institute for full-time research

Country of Study: South Africa

No. of awards offered: 150

Application Procedure: Applicants must complete and submit an application form, full academic record and the names of referees. Forms are available from the bursary offices of universities and technikons or can be downloaded from the website

Closing Date: 31 January or 31 July

Funding: Government

No. of awards given last year: 50

No. of applicants last year: 150

For further information contact:

Email: fellowships@twas.org

National Research Foundation Free-standing Masters and Doctoral Scholarships

Subjects: The NRF is mandated by an Act of Parliament, the National Research Foundation Act (Act No. 23 of 1998) to: Support and promote research through funding, human capacity development and the provision of the necessary research facilities, in order to facilitate the creation of knowledge, innovation and development in all fields of science and technology, including indigenous knowledge

Eligibility: Scholarships are open to South African citizens, South African permanent residents as well as a limited percentage of non-South African citizens registered at a South African public university. All applicants for full-time Masters or Doctoral studies in South Africa must be registered or intending to register at a South African public university. Applicants that already hold a degree at the level for which they are applying for funding are not eligible

Level of Study: Doctorate

Value: Masters scholarships worth ZAR 50,000 per year and doctoral scholarships worth ZAR 70,000 per year

Frequency: Annual

Country of Study: South Africa

Application Procedure: Applications must be submitted through an online application process to the NRF

Closing Date: 7 August

Funding: International office

For further information contact:

Email: CGSMSFSS-SEEMSBESC@cihr-irsc.gc.ca

National Research Foundation Targeted Research Awards Competitive Industry Programme

Subjects: Natural and applied sciences, engineering and technology

Purpose: To support research in priority areas where expertise is lacking

Eligibility: Open to South African citizens only, who qualify for postgraduate support. Postdoctoral support is available for any nationality

Level of Study: Doctorate, Postdoctorate, Postgraduate

Type: Research grant

Value: From a total of approximately rand 20 million per year

Frequency: Annual

Study Establishment: Any tertiary educational institution in South Africa

Country of Study: Other

No. of awards offered: 200

Application Procedure: Applicants must complete an electronic application form. For further information please contact Ms Jill Sawers

Closing Date: 31 July

Funding: Government

No. of awards given last year: 181

No. of applicants last year: 200

Additional Information: Joint ventures and collaboration with industry are strongly encouraged

For further information contact:

Tel: (27) 12 481 4104

National Research Foundation Visiting Fellowships

Subjects: Natural and applied sciences, engineering and technology

Purpose: To strengthen areas of expertise needed in South Africa

Eligibility: Open to senior scientists of any nationality

Level of Study: Postdoctorate

Type: Fellowship

Value: To cover air fares and accommodation

Length of Study: Up to 3 months

Frequency: Annual, if funds are available

Study Establishment: Any South African university, technikon, museum or scientific society

Country of Study: South Africa

Application Procedure: Applications should be submitted by a South African counterpart attached to a South African university, technikon, museum or scientific society

Closing Date: Three months before the proposed visit

For further information contact:

Meiring Naude Rd, Gauteng, Pretoria 0184, South Africa

Vrije University Amsterdam-NRF Desmond Tutu Doctoral Scholarships

Subjects: The Desmond Tutu Doctoral Training Programme (DTTP) was established in honour of Archbishop Emeritus Desmond Tutu's lifetime struggle against inequality and his quest for reconciliation. The National Research Foundation (NRF) and Vrije Universiteit Amsterdam (VUA) entered into a partnership in 2009 to co-fund South African students carrying out doctoral studies in a Joint Degree (split-site) mode

Eligibility: Be in possession of a research Master's degree, or be in the process of completing requirements for such a degree. Should be South African citizens or permanent residents

Level of Study: Postgraduate

Type: Scholarship

Value: ZAR 240,000

Length of Study: The VUA-NRF Desmond Tutu Training Programme provides funding for up to four (4) years of study, depending on satisfactory progress each year

Country of Study: South Africa

Application Procedure: Check website for more details

Closing Date: 17 July

Contributor: Vrije Universiteit Amsterdam (VUA)

For further information contact:

The National Science Foundation (NSF) supports research in the areas of geology, geophysics, geochemistry, paleobiology and hydrology, including interdisciplinary or multi-disciplinary proposals that may involve one or more of these disciplines.

Cultural Anthropology Program Senior Research Awards

Purpose: The primary objective of the Cultural Anthropology Program is to support fundamental, systematic anthropological research and training to increase understanding of the causes, consequences, and complexities of human social and cultural variability

Eligibility: The categories of proposers eligible to submit proposals to the National Science Foundation are identified in the NSF Proposal & Award Policies & Procedures Guide

Level of Study: Graduate

Type: Grant

Frequency: Annual

Country of Study: Any country

Closing Date: 15 August

Funding: Foundation

Additional Information: The Cultural Anthropology Program cannot support research that takes as its primary objective improved clinical practice, applied policy, or other immediate application

For further information contact:

Tel: (1) 703 292 5111

Email: jmantz@nsf.gov

Directorate for Education and Human Resources Core Research

Purpose: The ECR program places emphasis on the rigorous development of theory and accumulation of knowledge to inform efforts to address challenges in STEM interest, learning, and participation, for all groups and all ages in formal and informal settings. This emphasis includes research on advancing evaluative methodologies to support research efforts funded through ECR

Level of Study: Graduate

Type: Research

Frequency: Annual

Country of Study: Any country

Closing Date: 24 January

Funding: Foundation

Additional Information: 1. Level 1 and Level 2 proposals have a maximum grant duration of three years. 2. Level 3 proposals have a maximum grant duration of five years. ECR Proposals may fall within three levels of funding. Level 1 Proposals: have a maximum award size of US\$5,00,000. Synthesis proposals may only be budgeted at Level 1 or 2. Level 2 Proposals: have a maximum award size of US\$1,500,000. Synthesis proposals may only be budgeted at Level 1 or 2. Level 3 Proposals: have a maximum award size of US\$2,500,000

For further information contact:

Email: ECR@nsf.gov

Enabling Discovery through GENomic Tools (EDGE)

Subjects: EDGE is designed to provide support for research addressing current impediments to research progress in organismal biology. In particular, the ability to directly test gene function is essential to improve understanding of the genomes-to-phenomes relationship, an area relevant to Understanding the Rules of Life, one of 10 Big Ideas for future NSF investment

Purpose: The Enabling Discovery through GENomic Tools (EDGE) track was previously a component of the Division of Integrative Organismal Systems (IOS) Core Programs solicitation (NSF 16-505). Submission of letters of intent or preliminary proposals is not required. Only full proposals should be submitted in response to this solicitation. There is no annual limit to the number of proposals submitted per PI or co-PI in response to this solicitation

Eligibility: Institutions of Higher Education (IHEs) - Two- and four-year IHEs (including community colleges) accredited in, and having a campus located in the United States, acting on behalf of their faculty members. Special Instructions for International Branch Campuses of United States IHEs: If the proposal includes funding to be provided to an international branch campus of a United States institution of higher education (including through use of subawards and consultant arrangements), the proposer must explain the benefit(s) to the project of performance at the international branch campus, and justify why the project activities cannot be performed at the United States campus. Non-profit, non-academic organizations: Independent museums, observatories, research labs, professional societies and similar organizations in the United States associated with educational or research activities

Level of Study: Graduate

Type: Award

Frequency: Annual

Country of Study: Any country

Application Procedure: Step 1: Download a Grant Application Package and Application Instructions link and enter the funding opportunity number, (the program solicitation number without the NSF prefix) and press the Download Package button

Closing Date: 7 February

Funding: Private

Additional Information: For this solicitation, EDGE proposals do not require submission of a letter of intent or preliminary proposals. Additional merit review considerations and special review criteria can be found in section VI of this solicitation

For further information contact:

Faculty Early Career Development Program (CAREER)

Subjects: These awards are initiated by the participating federal agencies. At NSF, up to twenty nominees for this award are selected each year from among the PECASE-eligible CAREER awardees most likely to become the leaders of academic research and education in the twenty-first century

Purpose: Each year NSF selects nominees for the Presidential Early Career Awards for Scientists and Engineers (PECASE) from among the most meritorious recent CAREER awardees. These awards foster innovative developments in science and technology, increase awareness of careers in science and engineering, give recognition to the scientific missions of the participating agencies, enhance connections between fundamental research and national goals

Level of Study: Foundation programme

Type: Fellowships, operating grants

Frequency: Annual

Country of Study: Any country

Closing Date: 17 July

Funding: Foundation

For further information contact:

Email: info@nsf.gov

Macrosystems Biology and NEON-Enabled Science (MSB-NES)

Purpose: The Macrosystems Biology and NEON-Enabled Science (MSB-NES): Research on Biological Systems at Regional to Continental Scales program will support quantitative, interdisciplinary, systems-oriented research on biosphere processes and their complex interactions with climate, land use, and invasive species at regional to continental scales as well as training activities to enable groups to conduct Macrosystems Biology and NEON-Enabled Science research

Eligibility: Proposals may only be submitted by the following: Institutions of Higher Education (IHEs) - Two- and four-year IHEs (including community colleges) accredited in, and having a campus located in the United States, acting on behalf of their faculty members. Special Instructions for International Branch Campuses of United States IHEs: If the proposal includes funding to be provided to an international branch campus of a United States institution of higher education (including through use of subawards and consultant arrangements), the proposer must explain the benefit(s) to the project of performance at the international branch campus, and justify why the project activities cannot be performed at the United States campus. Non-profit, non-academic organizations: Independent museums, observatories, research labs, professional societies and similar organizations in the United States associated with educational or research activities

Level of Study: Graduate

Type: Award

Value: US\$9,00,000

Frequency: Annual

Country of Study: Any country

Closing Date: 25 February

Funding: Private

Additional Information: www.nsf.gov/bfa/dias/policy/merit_review/

Email: mberford@nsf.gov

National Science Foundation Research Traineeship (NRT) Program

Subjects: Collaborations are encouraged between NRT proposals and existing NSF INCLUDES projects, provided the collaboration strengthens both projects

Purpose: The NSF Research Traineeship (NRT) program is designed to encourage the development and implementation

of bold and potentially transformative models for science, engineering and mathematics (STEM) graduate education training. The NRT program seeks proposals that explore ways for graduate students in research-based master's and doctoral degree programs to develop the skills, knowledge, and competencies needed to pursue a range of STEM careers

Level of Study: Graduate

Type: Grant

Frequency: Annual

Country of Study: Any country

Closing Date: 6 February

Funding: Foundation

For further information contact:

Email: lregassa@nsf.gov

Robert Noyce Teacher Scholarship Program

Purpose: The program invites creative and innovative proposals that address the critical need for recruiting and preparing highly effective elementary and secondary science and mathematics teachers in high-need local educational agencies

Level of Study: Graduate, Foundation programme

Type: Scholarship

Frequency: Annual

Country of Study: Any country

Closing Date: 27 August

Funding: Private

Additional Information: Capacity Building proposals are accepted from proposers intending to develop a future Track 1, 2, or 3 proposal

For further information contact:

Email: rturley@nsf.gov

Scalable Parallelism in the Extreme (SPX)

Purpose: The Scalable Parallelism in the Extreme (SPX) program aims to support research addressing the challenges of increasing performance in this modern era of parallel computing. This will require a collaborative effort among researchers in multiple areas, from services and applications down to micro-architecture

Eligibility: Proposals may only be submitted by the following:
1. Institutions of Higher Education (IHEs) - Two- and four-year IHEs (including community colleges) accredited in, and having a campus located in the United States, acting on behalf of their

faculty members. 2. Non-profit, non-academic organizations: Independent museums, observatories, research labs, professional societies and similar organizations in the United States associated with educational or research activities

Level of Study: Graduate

Type: Grants, work-study (not just grants)

Frequency: Annual

Country of Study: Any country

Closing Date: 17 January

Funding: Private

Additional Information: This limit on the number of proposals per PI, co-PI or Senior Personnel applies only to this SPX program solicitation

For further information contact:

Sea Grant is a nationwide network administered through the National Oceanic and Atmospheric Administration (NOAA) of 30 university-based programmes that work with coastal communities. The organizations research and programmes promote better understanding, conservation and use of America's coastal resources. In short, Sea Grant is science serving America's coasts.

Sea Grant/NOAA Fisheries Graduate Fellowship

Subjects: Population dynamics and marine resource economics

Purpose: To financially support and encourage qualified applicants to pursue careers in either population dynamics and stock assessment or in marine resource economics and also to increase available expertise related to these fields

Eligibility: Applicants have to be PhD students in population dynamics or marine resource economics or related disciplines

concentrating on the conservation and management of living marine resources

Level of Study: Doctorate

Type: Fellowship

Value: US\$43,500 per year

Length of Study: 2 years

Frequency: Annual

Closing Date: 26 January

Funding: Government

National Sun Yat-Sen University (NSYSU) was founded in 1924 and is located alongside the Hsitzu Bay of Kaohsiung city. It is the leading international academic institution in Southern Taiwan with a vision to provide diverse and comprehensive higher education.

National Sun Yat-sen University International Fellowship

Subjects: Biodiversity or biogeochemistry

Purpose: To pursue academic excellence combining theory and practice

Eligibility: Open to candidates who are pursuing their Master's or Doctoral degrees

Level of Study: Doctorate, Postgraduate

Type: Fellowships

Value: Varies

Length of Study: 2–3 months

Frequency: Annual

Application Procedure: Applications along with a curriculum vitae, research proposal, name of the corresponding member in the Kuroshio Research Group and 2 letters of recommendation must be mailed

Additional Information: “Recommendation to Kuroshio Application” must appear as the subject line

For further information contact:

Email: keryea@mail.nsysu.edu.tw

National Tour Association

National Tour Association (NTA) Luray Caverns Graduate Research Scholarship

Purpose: To aid graduate students who are conducting tourism-related research

Eligibility: 1. Applicants can be permanent residents of any country but must be enrolled at an accredited United States or Canadian four-year postsecondary institution. 2. They must be entering or returning graduate students who are conducting research that focuses on tourism. They must have a proven commitment to the tourism industry, and must have a GPA of 3.0 or higher on a four-point scale. Selection is based on the strength of the research project

Level of Study: Graduate

Type: Scholarship

Frequency: Annual

Country of Study: Any country

Application Procedure: Applications are available online. An application form, proof of residency, a personal essay, a resume, a research proposal, an official transcript and one letter of recommendation are required. Check the sponsor website for further information. www.tourismcares.org/academic-scholarships/

Closing Date: 3 April

Funding: Private

National Union of Teachers Page Scholarship

Subjects: A specific aspect of American education relevant to the recipient’s own professional responsibilities

Purpose: To promote the exchange of educational ideas between Britain and America

Eligibility: Open to teaching members of the NUT aged 25–60 years, although 25–55 is preferred

Level of Study: Graduate

Type: Scholarship

Value: Each up to £1,700 pro rata daily rate with complete hospitality in the United States of America provided by the English-Speaking Union of the United States of America

Length of Study: 2 weeks. The scholarship must be taken during the American academic year, which is September–May

Frequency: Annual

Country of Study: United States of America

No. of awards offered: 100

Application Procedure: Applicants must complete an application form. An outline and synopsis of the project must accompany the form along with a curriculum vitae and scholastic and personal testimonials

Closing Date: no deadline

Funding: Private

No. of awards given last year: 2

No. of applicants last year: 100

Additional Information: It is a discontinued award type. The scholarship is limited to the individual teacher and neither the spouse nor partner can be included in the travel, accommodation or study arrangements. Recipients are required to report on their visit to teacher groups and educational meetings in the United States and on their return home

Charles Parsons Energy Research Award

Subjects: Microbial and biocatalytic fuel cell research

Purpose: To focus on investigation and optimization of electron transfer reactions in biological fuel cells that can generate energy from diverse substrates. To focus the research on applications of pure- and mixed-culture microbial fuel cells, and biocatalytic enzyme-based fuel cells

Eligibility: Open to engineering graduates

Level of Study: Doctorate

Type: Research award

Value: Salary scale €55,000–80,486 per year for researchers, stipend of €18,000 per year plus tuition fees for PhD student-ship and undergraduate engineering students €1,500 per month

Application Procedure: Applicants should include a curriculum vitae and the names of two academic referees

Closing Date: October

Additional Information: The research will involve liaison with international collaborators, bench research and reporting. To this end, good inter-personal, written communication and networking skills are advantageous

For further information contact:

PhD Student Scholarship in Atmospheric Science

Subjects: Atmospheric science

Purpose: To study the effect of ambient relative humidity on aerosol radiative parameters: aerosol light scattering coefficient and aerosol absorption coefficient

Eligibility: Open to candidates who have obtained a good Honours Degree (grade 2.1 at least) in physics or in a cognate subject

Level of Study: Doctorate

Type: Scholarship

Value: stipend and tuition fees

Length of Study: 3 years

Country of Study: Ireland

Application Procedure: Applicants must submit a covering letter, curriculum vitae and the names of at least two referees

Closing Date: The position will remain open until filled

Student Research Scholarship in Occupational Hygiene

Subjects: Occupational hygiene

Purpose: To enhance GSK's exposure assessment strategy, to look at current occupational hygiene data collected from across all GSK sites and to apply Bayesian statistics to optimize the exposure assessment strategy

Eligibility: Open to candidates who have obtained an Honours Degree (2.1 minimum) in a science or engineering discipline. Ideally, the candidate should have a sound understanding of mathematics/statistics, combined with an understanding of exposure assessment

Level of Study: Postgraduate

Type: Scholarship

Value: Monthly stipend

Country of Study: Ireland

Application Procedure: Applicants must submit a covering letter, a curriculum vitae and the names of at least two referees

Closing Date: 31 August

Contributor: GlaxoSmithKline (GSK)

Following two centuries of internationally renowned scholarly activity on the Maynooth campus, the National University of Ireland, Maynooth was established under the 1997 Universities Act as an autonomous member of the federal structure known as the National University of Ireland. With approximately 8,400 registered students, NUI, Maynooth has 26 academic departments which are organized into three Faculties: Arts, Celtic Studies and Philosophy; Science and

Engineering; and Social Sciences. Building on a tradition of scholarship and excellence in all aspects of its teaching, learning, and research activities, within the liberal arts and sciences tradition NUI, Maynooth is committed to being a first-class research-led centre of learning and academic discovery.

John and Pat Hume Research Scholarships

Subjects: Arts, humanities, social sciences, sciences and engineering

Purpose: To build on excellence in areas across the arts, humanities, social sciences, sciences and engineering

Eligibility: Applicants must have a First or Upper Second-Class Honours Primary Degree (or equivalent) from Ireland, the European Union or from any overseas university and intend to pursue a PhD degree at the University. Those who have commenced a research degree at NUI Maynooth prior to application will not be eligible

Level of Study: Postgraduate, Research

Type: Scholarship

Value: €5,000 per year plus payment of fees at European Union level. In some cases an additional fund of €3,000 is also provided to the student researcher for activities undertaken in support of the Department including tutorials and laboratory demonstration

Length of Study: Up to 4 years

Frequency: Annual

Study Establishment: NUI Maynooth

Country of Study: Ireland

Application Procedure: Applicants must first make contact with a NUI Maynooth department or centre to discuss their suitability for a PhD programme. A list of departmental contacts is available on the website. Application for the scholarship can then be filed

Closing Date: May

No. of awards given last year: 30

Additional Information: Supplement the scholarship with an additional €3,000 for tutorial or demonstrating duties

NUS aspires to be a dynamic connected knowledge community imbued with a no walls culture that promotes the free flow of talent and ideas. Individual members of our community enjoy access to diverse opportunities for intellectual and professional growth and in twin add value to NUS becoming a global knowledge enterprise.

Asian Development Bank-Japan Scholarship Program

Subjects: Public policy

Purpose: To fund further study in public policy implementation

Eligibility: Open to residents of Asian Development Bank member countries currently enrolled at NUS. Upon completion of their study programmes, scholars are expected to contribute to the economic and social development of their home countries. Check website for further details

Level of Study: Postgraduate

Type: Scholarship

Value: S\$250 per semester (one-time book allowance), tuition, health insurance, examination and other approved fees. Cost of travel from home country to Singapore on award of the scholarship and from Singapore to home country on graduation

Length of Study: 2 years for Master in public policy

Frequency: Annual

Study Establishment: Lee Kuan Yew School of Public Policy, National University of Singapore

Country of Study: Singapore

No. of awards offered: 350

Application Procedure: Application form with 3 photographs attached, certificate of citizenship (or a copy of your valid passport), research and/or work experience, two confidential letters of recommendation

Closing Date: 12 July

Funding: Government

Contributor: Government

Singapore-MIT Alliance Graduate Fellowship

Subjects: All subjects

Purpose: The SMA Graduate Fellowship is established by the Singapore Ministry of Education in January 2009 to attract the best and most talented PhD students from Singapore, the region and beyond, and educate them to be future leaders in the areas of science and technology. The selection of candidates will take place twice a year, in time for the start of the semesters in August and January

Eligibility: The Scholarships are open to students of all nationalities who gain admission to any PhD programme at the University whose research interest fits within one or more of the projects currently being carried out in one of the SMART Interdisciplinary Research Groups (IRGs)

Level of Study: Graduate, Postgraduate

Type: Fellowship

Value: A monthly stipend of Singaporean \$3,200; Tuition fees at NUS; and Scholarship allowance of up to \$12,000 to help cover the expenses associated with a 6-month research residency at MIT

Length of Study: The award is tenable for 1 year in the first instance; but subject to the scholar's satisfactory progress, it may be renewed each semester. The maximum period of award is 4 years

Frequency: Annual

Study Establishment: National University of Singapore and Nanyang Technological University

Country of Study: Singapore

No. of awards offered: 120

Application Procedure: Applicants must apply separately to both MIT and NUS/NTU for the dual degrees and only to NUS or NTU for direct PhD degree; applicants must also apply directly to SMA for an SMA Graduate Fellowship

Closing Date: Between January and March

Funding: Government

Contributor: A*Star, Economic and Development Board (EDB), Ministry of Education (MOE), National University of Singapore (NUS) and Nanyang Technological University (NTU)

No. of applicants last year: 120

Contact: Studentships & Training Awards Group (STAG)

The Natural Environment Research Council (NERC) is one of the seven United Kingdom Research Councils that fund and manage research in the United Kingdom. NERC is the leading body in the United Kingdom for research, survey, monitoring

and training in the environmental sciences. NERC supports research and training in universities and in its own centres, surveys and units.

Natural Environment Research Council Independent Research Fellowships (IRF)

Subjects: Environmental Sciences

Purpose: To develop scientific leadership among the most promising early-career environmental scientists, by giving all Fellows 5 year's support, which will allow them sufficient time to develop their research programmes, and to establish international recognition

Eligibility: Open to any nationality, and may be held in any area of the NERC remit, but the fellowship must be based at an eligible United Kingdom Research Organization. Applicants may not have a permanent academic position in a university or equivalent organization. Applicants must expect to submit their PhD thesis before the fellowship interview would take place (April following the closing date) and, if successful, would not be able to take up the fellowship until the intent to award the PhD has been confirmed by the awarding university. Applicants may have up to a maximum of 8 years of full-time postdoctoral research experience between the PhD certificate date and the closing date of the fellowship competition to which they are applying. The eight year window is based on full-time working. Where applicants have worked part-time or had research career breaks, the eight year window would be extended accordingly

Level of Study: Research

Type: Fellowship

Value: Includes 80 % of the full economic cost (FEC) of the proposal. NERC will provide funding for the fellow

Length of Study: 5 years

Frequency: Annual

Study Establishment: Universities and other approved research institutes

Country of Study: United Kingdom

Application Procedure: Please refer to the Research Grants and Fellowships Handbook at www.nerc.ac.uk/funding/available/fellowships/apply/

Closing Date: Early October (please check NERC website for exact date)

Funding: Government

No. of awards given last year: 14

For further information contact:

Email: Fellowships@nerc.ac.uk

Natural Environment Research Council Research Grants

Subjects: Research projects concerned with the natural environment

Purpose: To support a specific investigation in which the applicant will be engaged personally, to enter promising new or modified fields of research, or to take advantage of developments in apparatus offering improved techniques in promising lines of research already established

Eligibility: Open to research workers ordinarily resident in the United Kingdom who are also members of the academic staff of universities, colleges and similar institutions within the United Kingdom recognised by the NERC. Research assistants and technicians are not eligible to apply. Holders of Research Council Fellowships at an Institute of Higher Education are eligible to apply for research grants

Level of Study: Postdoctorate, Professional development

Type: Grant

Value: The Standard Research Grant offers amounts over £30,000, for periods not usually in excess of three years. The Small Research Grant offers a more rapid response for applications costing £2,000-30,000. Applications for less than £2,000 will not be accepted. The new investigator scheme offers up to the £50,000

Frequency: Throughout the year

Study Establishment: Any approved Institute of Higher Education in the United Kingdom

Country of Study: United Kingdom

Application Procedure: Applicants must complete an application form, available on request. Application forms and further information can be found on the NERC website

Closing Date: The deadlines for the Standard Research Grant are 1 July and 1 December. The deadlines for the Small Research Grant are 1 February, 1 June or 1 October

Funding: Government

No. of awards given last year: 307

Natural Hazards Center-University of Colorado

482 UCB, Boulder, CO 80309-0482, United States of America

Tel: (1) 303 492 6818

Fax: (1) 303 492 2151

Email: hazctr@colorado.edu

Website: www.colorado.edu/hazards

The mission of the Natural Hazards Center at the University of Colorado at Boulder is to advance and communicate knowledge on hazards mitigation and disaster preparedness, response and recovery. Using an all hazards and interdisciplinary framework, the Center fosters information-sharing and integration of activities among researchers, practitioners and policy makers from around the world, supports and conducts research and provides educational opportunities for the next generation of hazards scholars and professionals.

Dissertation Fellowship in Hazards, Risks, and Disaster

Subjects: Natural and physical sciences, social and behavioural sciences, specialities in engineering and environmental studies

Purpose: To provide financial support for research that is crucial to advancing the knowledge in the hazards field, as well as ensure that the next generation of interdisciplinary hazards professional has a source of financial and academic support to foster sound development

Eligibility: Open to candidates who already have a dissertation at an institution in the United States. Non-United States citizens may apply as long as the Doctorate degree will be granted by a United States institution

Level of Study: Postgraduate

Type: Fellowships

Value: US\$10,000

Frequency: Annual

Country of Study: United States of America

Application Procedure: The applicant must submit a curriculum vitae along with a dissertation summary

Closing Date: September

For further information contact:

NSERC is Canada's instrument for promoting and supporting university research in the natural sciences and engineering, other than the health sciences. NSERC supports both basic university research through discovery grants and project, research through partnerships among universities, governments, and the private sector as well as the advanced training of highly qualified people.

Aboriginal Ambassadors in the Natural Sciences and Engineering Award

Subjects: Natural sciences and engineering

Purpose: The Aboriginal Ambassadors in the Natural Sciences and Engineering (AANSE) award aims to engage Aboriginal students and fellows in promoting interest and participation in the natural sciences and engineering by visiting Canada's Aboriginal communities and schools and sharing their research and education experiences or participating in science promotion events and activities

Eligibility: Open to Canadian citizen or permanent resident of Canada

Level of Study: Postgraduate

Type: Award

Value: Up to C\$5,000

Country of Study: Canada

Application Procedure: Applications must be submitted electronically using the Secure Submissions for NSERC's Innovative Collaborations and Science Promotion Programs (competitions.nserc-crsng.gc.ca/500001/default.aspx)

Closing Date: There are no fixed deadlines for this award. Applications must be made at least 2 months before the start of a proposed outreach activity. The awards available in a given year will be awarded on a first-come, first-served basis

Additional Information: NSERC will notify you of the decision on your application within one month of receiving it. For more details, please mail to ambassadors@nserc-crsng.gc.ca

For further information contact:

Email: ambassadors@nserc-crsng.gc.ca

Canada Graduate Scholarships – Michael Smith Foreign Study Supplements Program

Purpose: The Canada Graduate Scholarships – Michael Smith Foreign Study Supplements (CGS-MSFSS) Program supports high calibre Canadian graduate students in building global linkages and international networks through the pursuit of exceptional research experiences at research institutions abroad

Eligibility: Open to Canadian citizen or permanent resident of Canada

Level of Study: Postgraduate

Type: Award

Value: Up to C\$6,000 for a period of research study abroad

Length of Study: 6 months

Country of Study: Canada

Application Procedure: Online application procedure. For details, contact schol@nserc-crsng.gc.ca

Closing Date: 10 June and 10 October each year

The Netherlands Organization for Scientific Research (NWO) is the central Dutch organization in the field of fundamental and strategic scientific research. NWO encompasses all fields of scholarship and consequently plays a key role in the development of science, technology and culture in the Netherlands. NWO is an independent organization that acts as the national research council in the Netherlands. NWO is the largest national sponsor of fundamental scientific research undertaken in the 13 Dutch universities and provides many types of funding for research driven by intellectual curiosity.

Rubicon Programme

Subjects: Scientific research

Purpose: To encourage talented researchers at Dutch Universities to dedicate themselves to a career in postdoctoral research

Eligibility: Open to researchers from all scientific disciplines engaged in PhD research or obtaining a PhD in the last 12 months

Level of Study: Postdoctorate

Type: Grant

Value: €5,300,000 a year

Length of Study: Up to 2 years

Application Procedure: A completed application form to be submitted via NOW's electronic submission system Iris

Closing Date: 28 November

Contributor: The Netherlands Ministry of Education, Culture and Science

Additional Information: Total amount for each (current year) Rubicon round is €2,900,000

Western Sydney Artists Fellowship

Subjects: Creative arts

Purpose: To encourage artists and students in the field of creative arts

Eligibility: Open to applicants who are residents of Western Sydney or whose practice is located primarily in Western Sydney

Level of Study: Postgraduate

Type: Fellowship

New York Foundation for the Arts (NYFA), founded in 1971, helps artists turn inspiration into art by giving more money and support to individual artists and arts organizations than any other comparable institution in the United States.

Canadian Women Artists' Award

Subjects: Applicants can submit in the following categories: Architecture/Environmental Structures/Design, Choreography, Crafts/Sculpture, Digital/Electronic Arts, Fiction, Folk/Traditional Arts, Interdisciplinary Work, Music/Sound, Nonfiction Literature, Painting, Photography, Playwriting/Screenwriting, Poetry, Printmaking/Drawing/Book Arts, & Video/Film

Purpose: The Canadian Women Artist's Award is open to emerging or early career artists in New York, New Jersey, and Connecticut. The \$5,000 award is designed to provide financial support to an emerging or early career artist working in any discipline, and can be used in any manner the recipient deems necessary to further their artistic goals. It is supported by funding granted to NYFA by the Canadian Women's Club (CWC) of New York as a way to continue its philanthropic work when it disbanded

Eligibility: The Canadian Women Artist's Award is open to women artists who meet the following requirements: Must be a Canadian citizen, and able to provide proof of citizenship with legal documentation upon receipt of the award; Must be

between the ages of 21 and 35 before the application deadline; Must be a current resident of New York, New Jersey, or Connecticut; Must apply in only one of the eligible discipline categories; Must be the originators of the work, i.e. choreographers or playwrights; not awarded to interpretative artists such as dancers or actors; Must not be a previous recipient of the Canadian Women Artist's Award; Must not be a NYFA employee, member of the NYFA Board of Trustees or Artists' Advisory Committee, and/or an immediate family member of any of the previous

Level of Study: Unrestricted

Type: Award

Value: \$5,000

Frequency: Annual

Country of Study: Any country

No. of awards offered: 82

Application Procedure: All applicants must apply online at apply.nyfa.org/submit. The application cycle runs through the Spring, opening in March and closing in May

Rangel Graduate Fellowship Program

Purpose: The Rangel Graduate Fellowship is a United States Department of State program, administered by Howard University, that seeks to attract and prepare outstanding young people for careers as Foreign Service Officers in the United States Department of State

Eligibility: 1. Applicants must be seeking admission to enter graduate school in the fall for a two-year program at a United States university in an area of relevance to the Foreign Service. They can be in their senior year of their undergraduate studies, graduating by June, or they can be college graduates. 2. Applicants must have a cumulative grade point average of 3.2 or higher on a 4.0 scale at the time of application. 3. Applicants must be United States citizen

Level of Study: Postgraduate

Type: Fellowship

Value: Up to US\$37,500 annually toward tuition, fees and living expense

Frequency: Annual

Country of Study: United States of America

Application Procedure: The Rangel Program expects to award 30 fellowships each November for cohort. A panel of individuals with experience in the United States Foreign Service and academia makes selections for the Rangel Program. A candidate's community, academic, extracurricular, and leadership activities will be considered during the selection process. Rudolph Ganz Fellowship

Subjects: Humanities, local history, music and music history, theatre & performance history/studies

Purpose: The Rudolph Ganz Fellowship is a new opportunity at the Newberry Library. The fellowship is intended to support research using the Rudolph Ganz Papers and other late nineteenth- and early twentieth-century materials related to Chicago music in that period. The Rudolph Ganz Papers include the musical compositions of this world-renowned concert pianist, composer, conductor, and educator, as well as articles, speeches, lectures and essays by him, and two recordings. Also in the collection is correspondence to and from prominent musical figures, family correspondence, clippings, photographs, programs, and some artifacts

Eligibility: Applicants must demonstrate a specific need for the Newberry's collection. For additional information about eligibility requirements and application guidelines, please check the website: www.newberry.org/fellowships

Type: Scholarship

North Central College is a private, four year co-educational college located in Naperville, just 30 miles west of Chicago, Illinois. North Central offers over 50 undergraduate majors and six master's programmes.

North Central Association for Counselor Education and Supervision Research Grant Awards

Purpose: The call for proposals is to fund studies that increase understanding of the counselor education profession (including research, teaching, supervision, leadership and advocacy). Research grant awards will be presented at the business meeting at the NCACES
Eligibility: Proposed topic is within the scope of this Research Award program. Need for the proposed topic is clearly outlined through review of the research. Objectives are clear and attainable in the proposed study. Methodology proposed is appropriate for the research questions. Outcomes are consistent with objectives and method. Research proposed

adheres to ACA/ACES ethical standards for research with human subjects

Level of Study: Graduate

Type: Study grant

Value: Three US\$1,000 awards

Frequency: Annual

Country of Study: Any country

Application Procedure: The competition is open to both professional and student members of NCACES. The primary investigator must be an ACES/NCACES member at the time the application is submitted. Individuals may submit (or be part of a submission team) for only one proposal. ncaces.org/awards/general/gsubmit

Closing Date: 29 June

Funding: Private

Memorial Fund of 8 May

Subjects: All subjects

Purpose: To promote cultural exchange between foreign countries and Norwegian residential experiential colleges by providing scholarships for residence, and to help prepare young people for everyday life in the community

Eligibility: Open to candidates aged 18–22 years who do not have a permanent residence in Norway, and do not hold a Norwegian passport. Candidates must be planning to return to their home country after a year in Norway. Candidates must be aware of the kind of education the Memorial Fund bursaries cover, that being a year in a Norwegian residential colleges, not admission to

education on a higher level, such as a university, or specialized training

Type: Scholarship

Value: The scholarship will cover board and lodging. In addition it is possible to apply for extra funds. Applicants from some countries may apply for required books and excursions arranged by the school. Also, extra support may be provided for short study trips and short courses before or after the school year. A fixed amount towards spending money may also be given. Normally the students must pay their own travelling expenses. The colleges do not charge tuition fees

Length of Study: 1 year

Frequency: Annual

Study Establishment: Norwegian residential experiential colleges

Country of Study: Norway

No. of awards offered: 700

Application Procedure: Applicants must request more information and application forms from the Memorial Fund of 8 May or to the nearest Norwegian Embassy. Applicants who require a scholarship to attend a Norwegian college should not apply to a them directly. In this case, the Board will place successful applicants at a college school based on their hobbies and interest. Residence permits must be applied for by each individual student when a scholarship has been granted

Closing Date: 1 November

Funding: Government

No. of awards given last year: 25

No. of applicants last year: 700

Additional Information: A residential experiential college is a 1-year independent residential school, primarily for young adults, offering many non-traditional subjects of study. Each college has its own profile, but as a group, the Norwegian colleges teach classes covering almost all areas, including history, arts, crafts, music, sports, philosophy, theatre, photography etc
