The James Madison Memorial Fellowship

Purpose: The James Madison Memorial Fellowship is a federal program that offers secondary level teachers (both pre-service and in-service) of history and government up to US\$24,000 to complete a master's degree in history, political science, or related fields

Eligibility: To be eligible, 1. You must be, or plan to become, a teacher of American history, American government, or any other social studies class, teaching topics on the Constitution at the secondary school level (grades 7-12). 2. In addition, you must be a United States citizen and either possess a bachelor's degree, or plan to receive a bachelor's degree no later than August 31 of the year in which you are applying. 3. Fellows will have the unique opportunity to attend an intensive summer institute to strengthen their knowledge of the origins and development of American constitutional government. The Foundation plans to offer one fellowship per state per year

Level of Study: Graduate

Type: Fellowship

Value: US\$24,000

Frequency: Annual

Country of Study: United States of America

Application Procedure: 1. Applicants compete only against other applicants from the states of their legal residence. 2. Applicants are evaluated on their demonstrated commitment to a career teaching American history, American government, or civics classes where you will teach topics on the Constitution at the secondary school level; demonstrated intent to pursue and complete a program of graduate study that emphasizes the Constitution and offers instruction in that subject; demonstrated devotion to civic responsibility. 3. Demonstrated capacity for study and performance as

classroom teachers, and their proposed courses of graduate study. 4. Applicants will be evaluated without regard to race, color, religion, sex, age, national origin, disability, political affiliation, marital status, sexual orientation or other non-merit factors

Closing Date: 9 March

Funding: Private

Four major problems threaten the health of America's babies: birth defects, infant mortality, low birth weight and lack of prenatal care. The goal of the March of Dimes Birth Defects Foundation is to eliminate these problems so that all babies can be born healthy.

Basil O'Connor Starter Scholar Research Award

Purpose: This award is designed to support young scientists just embarking on their independent research careers and is limited, therefore, to those holding recent faculty appointments. The applicants' research interests should be consonant with those of the Foundation

Eligibility: The Basil O'Connor Starter Scholar Research Award is intended to be an initial independent grant to

young investigators. Eligibility is thus restricted. PhD applicants should be 4 to 8 years past their degree and must hold a full-time faculty position at their current institution. For MD or MD/PhD applicants, the same 4–8 year timeline applies, but begins upon completion of the last year of clinical training required for medical specialty board certification. Requests for exceptions (e.g. parental leave) should be directed to the Senior Vice President for Research & Global Programs

Type: Award/Grant

Value: Up to US\$150,000 for 2 years

Frequency: Annual

Application Procedure: Deans, Chairs of Departments, or Directors of Institutes/Centers should submit nominations for this award addressed to the Senior Vice President for Research and Global Programs

Closing Date: 15 March

Funding: Private

Additional Information: These grants do not cover the recipient's salary, but do provide salary support for technical help. Please email any enquiries regarding award researchfunding.duke.edu/basil-o%E2%80%99connor-starter-scholar-research-award

Peter Baker Fellowship

Purpose: The awards are intended for post-doctoral scientists interested in research in marine biology. Applications are particularly encouraged from those interested in physiological research.

Level of Study: Post-doctoral

Type: Fellowship

Value: Up to £3,000

Application Procedure: 1. Applications should be sent by e-mail to info@mba.ac.uk and one hard copy to the address shown below, to reach the MBA by 31st January in any one year. 2. Applications will be reviewed by the Research Committee of the MBA Council at its April Council meeting. 3. Usually one Fellowship will be awarded each year. 4. On appointment the Fellow is expected to work at the Citadel Hill Laboratory, Plymouth, for a period of up to two months within a period of 2 years after appointment. 5. On completion of the award the Fellow is required to submit a Final Report. This will comprise a financial summary on how the award was used (max. one A4 page), a scientific report (max. one A4 page) summarising the research completed, its wider implications, outputs such as journal publications, and the synergies made with the MBA during the research visits.

Closing Date: 31 January

Marketing Science Institute (MSI)

Doctoral Dissertation Proposal Competition

Subjects: Marketing and Related Fields

Purpose: This competition recognizes marketing doctoral students who are working on research questions with important marketing, societal, and policy implications.

Eligibility: See website

Type: Research grant

Value: US\$5,000

Frequency: Annual

Country of Study: Any country

No. of awards offered: Up to five

Closing Date: 31 July

No. of awards given last year: 2 winners

Additional Information: The competition is open to doctoral candidates in marketing and related fields (e.g., management, strategy, organizational behavior, consumer psychology, economics, etc.). The dissertation must be no more than fifty

percent completed at the time of submission. Proposals will be judged on importance and potential contribution of the subject to business and academia; quality of conceptual development; feasibility and appropriateness of methodology; fit of research with MSI priorities; and creativity. Design aspects will play a particularly important role in the evaluation process. www.msi.org

Marshal Papworth

East of England Showground, Alwalton, Oundle Road, Peterborough, Cambridgeshire, PE2 6XE, United Kingdom.

Tel: (44) 1733 363514
Email: slauridsen@eastofengland.org.uk
Website: www.marshalpapworth.com

Marshal Papworth - the man behind the fund. Our Fund takes its name from our late founder, Marshal Papworth, a well-respected Huntingdonshire farmer, who played a key role in the agricultural community, as well as being a proactive member of the East of England Agricultural Society. Born in 1939 to parents who farmed in Huntingdonshire Marshal began his farming career as a tenant farmer on Lord de Ramsey's 270 acre Townsend Farm in Upwood. An adventurous and visionary man, Marshal travelled extensively to Africa and Asia. It was during these trips that he saw the plight that communities in developing countries faced on a daily basis in sourcing food and safe water. Witnessing these difficulties, Marshal recognised the benefits that such communities could gain ativan over the counter from being given the opportunity to embrace sustainable farming practices and learn valuable agricultural and horticultural skills. Marshal's untimely death in a flying accident was a huge loss to his family and friends, and to the communities in which he was involved. However, through his sincere generosity, his legacy has been able to live on by way of our Fund by providing scholarship opportunities for students in developing countries. Marshal's vision - helping students develop skills they can take back to their homelands and use for the benefit of their own communities - stands as true today as it did while he was alive, and through our work, continues to enrich the lives of people from developing countries around the world.

Marshal Papworth Scholarships in Agriculture for Developing Countries

Purpose: Marshal Papworth provides scholarships for students from developing countries for 1-year Masters degree programmes in agriculture or horticulture

Eligibility: Applicants should be nationals of and resident in developing countries (countries with a GNI per capita below US\$11500), and scholarship candidates who fully meet the criteria for the courses will be shortlisted for the scholarships against 3 main criteria: academic excellence, professional experience (includes experience gained in a voluntary capacity) in community development and/or agricultural development, and the potential for contribution to development in their home country after completion of their degree programme. Applicants should be talented individuals who demonstrate that they have the potential, at the end of their Masters programme, to motivate people and communities in their home country towards positive change. Applicants must have a good command of the English Language

Level of Study: Masters Degree

Type: Scholarships

Value: £19,000

Length of Study: 1 year

Frequency: annual

Country of Study: UK

Application Procedure: Candidates for the Masters scholarships cannot apply directly to the Marshal Papworth Fund for the Masters programme. Rather, they have to apply directly to the participating universities. Once accepted into a course the university/college will select candidates they believe are eligible for a Marshal Papworth Scholarship and will forward the students application and CV onto the Marshal Papworth Fund directly for consideration. Applications for scholarships must be received from partnering universities/colleges no later than the end of the second week of April, or the last day before the Easter break, whichever is the former. To apply for the 10-week course at Harper Adams University starting in May, you must make an application through accredited organizations found at this link before their deadline. It is important to visit the official website (link found below) for detailed information on how to apply for this scholarship.

No. of awards offered: 15

Closing Date: April

Max Planck Institute

The Max Planck Society grants scholarships of various amounts in line with the academic qualifications of the applicant.

Criminology Scholarships for Foreign Researchers in Germany

Purpose: To pursue research programme

Eligibility: Preference is given to those researchers whose work promotes and advances the goals of the research program and the research focuses of the Institute

Level of Study: Doctorate, Postdoctorate, Research

Value: Doctoral scholarships: €1,365 per month Postdoctoral scholarships: €2,100 per month Research scholarships: €2,300 per month

Length of Study: 2 to 4 months

Country of Study: Germany

Closing Date: 31 May

Additional Information: scholarship-positions.com/criminology-scholarships-foreign-researchers-germany/2017/02/02/

Max Planck Institute for the History of Science Postdoctoral Fellowship in Germany

Purpose: The Max Planck Institute for the History of Science, Berlin is delighted to offer two postdoctoral fellows the opportunity to study in Germany starting on 1 September, for three years, with the employment contract

Eligibility: Candidates of all nationalities are invited to apply; applications from women are especially welcome. The Max Planck Society is committed to promoting handicapped individuals and encourages them to apply. Candidates should hold a doctorate in the history of science or related field at the time the position begins (PhD awarded in 2016 or later)

Level of Study: Postdoctorate

Type: Fellowship

Frequency: Annual

Country of Study: Any country

Application Procedure: Your application should contain:

1. Cover letter (indicating in which project you are interested).
2. Curriculum vitae including the list of publications.
3. Research prospectus (maximum 750 words).
4. Sample of writing.
5. Names and contact details of at least two referees

Max Planck Institute-DS Gauss Postdoctoral Fellowships for International Students

Purpose: These prestigious positions are aimed at postdoctoral researchers who have shown exceptional promise in their doctoral or early postdoctoral work, which needs to be in a relevant field

Eligibility: International students are eligible to apply for this fellowship. The candidate should hold a PhD/DPhil degree with a background in theoretical physics, applied mathematics, or related fields, have prior experience with non-equilibrium statistical physics of biological systems and soft matter, and be fluent in the English language

Type: Postdoctoral fellowship

Value: The candidate should hold a PhD/DPhil degree with a background in theoretical physics, applied

mathematics, or related fields, have prior experience with nonequilibrium statistical physics of biological systems and soft matter, and be fluent in the English language. The Gauss fellowship is limited to two years with the possibility of extension. Salary is in accordance with the German state public service salary scale (E13 TVöD-Bund) and the corresponding social benefits. The earliest starting date is 1 March

Study Establishment: The MPI-DS has recently appointed Oxford University theoretical physicist Prof. Ramin Golestanian as a new Director, and he is currently in the process of establishing the Department of Living Matter Physics. The new department will engage in a wide range of theoretical research aimed at a multi-scale understanding of the dynamics of living systems from a physical perspective

Country of Study: Germany

Application Procedure: Please apply online on our application portal. Applications in writing will not be sent back. Please send your CV, publication list, a statement of research interest and at least two letters of reference. Your statement of research interest should be commensurate with the position you are applying to. In addition to the description of your proposed research if relevant (depending on the position you are applying to), it should also briefly describe your past and current research interests and why you are interested in joining our department. The positions are open until they are filled. Once a position is filled, all applicants will be informed about the final decisions

Additional Information: Please check the website for more details scholarship-positions.com/mpii-ds-gauss-postdoctoral-fellowships-international-students-germany/2017/12/26/ www.scholarshipsads.com/germany-mpi-ds-gauss-postdoctoral-international-fellowships-2018/

Max Planck Institute for European Legal History

Postfach 50 07 01, D-60395 Frankfurt, Germany.

Tel: (49) 69 789 78

Contact: The Max Planck Institute for European Legal History

The Max Planck Institute for European Legal History (MPIeR) in Frankfurt is a world leader in researching the history of law in Europe and beyond. Its two research

departments with more than 60 scholars, the unrivalled collections of its specialized library and its numerous national and international co-operations make it the central research hub for a global scientific community investigating the past, present and future of legal regimes.

Postdoctoral and Research Scholarships at MPIeR in Germany

Purpose: The Max Planck Institute for European Legal History (MPIeR) invites scholars from Germany and abroad to apply for Postdoctoral and Research Scholarships. The Institute will be awarding several scholarships for a research stay at the MPIeR

Eligibility: Scholars from both Germany and abroad are eligible to apply. If English is not your first language then you will need to show that your English language skills are at a high enough level to succeed in your studies

Type: Research

Value: The amount of the scholarship awarded is dependent on the scholarship holder's level of qualification. Postdocs receive €2,100.00 per month and research scholarship holders receive €2,300.00 per month

Study Establishment: The main areas of research pursued at the Institute are: Department I - Professor Stefan Vogenauer (Legal transfer in the common law world, History of European Union Law, Fundamental issues concerning legal reception) and Department II - Professor Thomas Duve (Diversity, property and dependency regimes in Iberian Imperial territories (16th - 20th century), Legal history of the School of Salamanca, History of legal historiography: traditions of writing legal history)

Country of Study: Germany

Application Procedure: Applications should be complete (including CV, list of publications, and the form "Additional Application Details") and submitted via the online application system. Furthermore, we request PDF copies of three major publications the applicant has authored within the last five years as well as the contact details of two personal referees

Closing Date: 31 May

Additional Information: For more information, please see the website scholarship-positions.com/postdoctoral-and-research-scholarships-mpier-germany/2018/02/13/ www.scholarshipsads.com/postdoctoral-research-scholarships-mpier-germany-2019/

The Medical Library Association (MLA) is organized exclusively for scientific and educational purposes, and is dedicated to the support of health sciences research, education and patient care. MLA fosters excellence in the professional achievement and leadership of health sciences libraries and

information professionals to enhance the quality of healthcare, education and research.

Eugene Garfield Research Fellowship

Purpose: To stimulate research into the history of information sciences to increase the underlying knowledge-base and enhance the current and future practice of the information professions, particularly health sciences librarianship and health informatics

Eligibility: Health sciences librarians and information scientists, health professionals, researchers, educators, and administrators are eligible. Applicants must have a master's or doctor's degree or be enrolled in a program leading to such a degree and demonstrate a commitment to the health sciences

Type: Fellowship

Value: US\$5,000

Length of Study: 1 year

Frequency: Annual

Application Procedure: Applicants must submit a complete application, curriculum vitae, a detailed research proposal, and letter(s) of support from the applicant's home institution

Closing Date: 1 December

Funding: Private

Additional Information: The fellowship is not designed to support research for a doctoral dissertation or master's thesis. For more information about any of MLA's grants or scholarships, contact Maria Lopez at (1) 312 419 9094 (x15) issociety.org/awards/eugene-garfield-doctoral-dissertation-award/

LA Doctoral Fellowship

Purpose: The MLA Doctoral Fellowship fosters and encourages superior students to conduct doctoral work in an area of health sciences librarianship or information sciences and to provide support to individuals who have been admitted to candidacy. The award supports research or travel applicable to the candidate's study within a twelve-month period. The award and may not be used for tuition.

Eligibility: 1. The applicant must be a member of MLA. 2. The applicant must be a graduate of an American Library Association-accredited school of library science or have equivalent graduate credentials in related information science disciplines (i.e., computer science, biomedical informatics). 3. The candidate must be a candidate in a doctoral program with an emphasis on biomedical and health-related information science. Preference will be given to applicants who have at least 75% of their course work completed and dissertation prospectus either approved or in the approval process. 4. The candidate must be a citizen of or have permanent residence status in the United States or Canada. 5. A past recipient of the MLA doctoral fellowship is ineligible.

Type: Fellowship

Value: US\$2,000

Length of Study: 1 year

Application Procedure: 1. The completed online application and all additional documentation must be received by December 1. 2. Two letters of reference are required. One reference must be from the applicant's advisor for the doctoral program in which he or she is enrolled, and the other must be from a person recognized for special competence or expertise in the proposal field. 3. The candidate is required to submit an informative summary and detailed budget for the doctoral project along with the application. 4. Once the doctoral fellowship is awarded, no changes may be made in budget or plans without prior approval from MLA. 5. The MLA doctoral fellowship will pay US\$2,000 in one payment toward: project expenses related travel expenses augmenting another larger, separately funded project relevant to health sciences librarianship and which is part of the requirements of a doctoral degree. 6. All publications and oral presentations by the grantee relevant to the project should acknowledge MLA support. 7. The period of disbursement will not exceed two years past the date of the MLA annual meeting at which the award is given. 8. Depending on the qualifications of the candidates, the jury may recommend that the fellowship not be awarded in a given year. 9. MLA will acknowledge applications upon receipt via email.

Closing Date: 1 December

The Medical Research Council (MRC) offers support for talented individuals who want to pursue a career in the biomedical sciences, public health and health services research. It provides its support through a variety of personal award schemes that are aimed at each stage in a clinical or non-clinical research career.

Biomedical Catalyst: Developmental Pathway Funding Scheme (DPFS)

Purpose: To encourage clinicians to become involved in research and to promote research of relevance to the Royal College of Obstetricians and Gynaecologists

Eligibility: Open to members of the RCOG wishing to pursue research at PhD or MD level. Applicants must have a minimum of one year of experience in clinical obstetrics and gynaecology and hold part one membership of the college. Residence requirements apply

Level of Study: Postgraduate, Research

Type: Fellowship

Value: £50,000-100,000 (estimated total funds is £80,000). Predoctoral level-the award provides a competitive personal salary, up to Specialist Registrar but not including NHS Consultant level, a Research Training Support Grant of up to £10,000 per year (items must be detailed and justified), and an annual travel allowance of £450. Postdoctoral level-the fellowship provides a competitive personal salary, up to Specialist Registrar but not including NHS consultant level, research expenses, and travel costs at an appropriate level for the research, under full economic costs (FEC). For full details of what funding includes at each level please see their website

Length of Study: 1-3 years

Frequency: Annual

Study Establishment: A suitable university or similar institution

Country of Study: United Kingdom

Application Procedure: Applicants must contact the Fellowships Section, Research Career Awards of the MRC for details

No. of awards offered: 2

Funding: Government

No. of awards given last year: 2

No. of applicants last year: 2

Additional Information: Please see the website for further details mrc.ukri.org/funding/browse/biomedical-catalyst-dpfs/biomedical-catalyst-developmental-pathway-funding-scheme-dpfs-submission-deadlines/

Medical Research Council Career Development Award

Purpose: The DPFS scheme is a key part of our Translational Research Strategy and supports the translation of fundamental discoveries toward benefits to human health. It funds the pre-clinical development and early clinical testing of novel therapeutics, devices and diagnostics, including "repurposing" of existing therapies

Eligibility: The following condition applies to this scheme, in addition to our normal rules: Individuals may be the principal investigator (the named, lead applicant) on one application per round. All costs towards the funding scheme should be

fully justified within a proposal and the Panel will assess value for money in the context of the proposed work

Level of Study: Graduate

Type: Funding support

Frequency: Annual

Country of Study: Any country

Application Procedure: Proposals are assessed in a two-stage process. 1. The first step involves review of an outline proposal (download the outline Case for Support form here). Successful outline applicants are invited to submit a full application, which undergoes external peer review before a further, more detailed, review by the Panel. 2. The total assessment time for an application submitted to MRC, from outline submission to full decision, is approximately 26 weeks. All applicants will receive feedback from the assessment process. Guidance for preparation of full proposals will be provided to successful applicants with the outline feedback

Closing Date: 21 March

Funding: Private

Additional Information: Fundamental or investigative research not linked to a development plan (supported by the Research Boards Clinical studies where the primary purpose is to investigate disease mechanism supported by the Research Boards Late-phase clinical trials supported by the MRC-NIHR Efficacy and Mechanism Evaluation Programme and the NIHR Health Technology Assessment Programme) mrc.ukri.org/skills-careers/fellowships/non-clinical-fellowships/career-development-award-cda-transition-to-independence/

Email: DPFSandDCS@mrc.ukri.org

Medical Research Council Clinical Research Training Fellowships

Purpose: To award outstanding researchers who wish to consolidate and develop their research skills and make the transition from postdoctoral research and training to becoming independent investigators, but who do not hold established positions

Eligibility: It is expected that all applicants will hold a PhD or MPhil in a basic science and will have at least 3 years of postdoctoral research experience

Level of Study: Postdoctorate, Research

Type: Fellowship

Value: Competitive personal salary support plus research support staff at the technical level, research expenses, capital equipment and a travel allowance for attendance at scientific conferences

Length of Study: Maximum duration of upto 5 years

Frequency: Annual

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC

No. of awards offered: 86

Closing Date: 25 April

Funding: Government

No. of awards given last year: 13

No. of applicants last year: 86

Additional Information: Awards may occasionally be jointly funded with other bodies. Please contact the Fellowships Section at the MRC for further details. Medical Research Council Clinician Scientist Fellowship

Purpose: To provide an opportunity for specialized or further research training leading to the submission of a PhD, DPhil, or MD

Eligibility: Open to hospital doctors, dentists, general practitioners, nurses, midwives and allied health professionals. Residence requirements apply

Level of Study: Postgraduate, Research

Type: Fellowship

Value: An appropriate clinical academic salary will be provided along with a fixed sum for research expenses and a travel allowance for attendance at scientific conferences

Length of Study: Up to 3 years

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC

No. of awards offered: 169

Funding: Government

No. of awards given last year: 39

No. of applicants last year: 169

Additional Information: In addition to this scheme, the MRC also offers Joint Training Fellowships with the Royal Colleges of Surgeons of United Kingdom and Edinburgh and the Royal College of Obstetricians and Gynaecologists. These

awards are aimed at individuals whose long-term career aspirations involve undertaking academic clinical research. Fellowships may also be jointly funded with the MS Society or the Prior Group. Please contact the Fellowships Section at the MRC for further details and see the website mrc.ukri.org/skills-careers/fellowships/clinical-fellowships/clinician-scientist-fellowship-csf/

Medical Research Council Industrial CASE Studentships

Purpose: To provide an opportunity for outstanding clinical researchers who wish to consolidate their research skills and make the transition from postdoctoral research and training to becoming independent investigators

Eligibility: The scheme is open to hospital doctors, dentists, general practitioners, nurses, midwives and allied health professionals. All applicants must have obtained their PhD or MD in a basic science or clinical project, or expect to have received their doctorate by the time they intend to take up an award, and must not hold tenured positions

Level of Study: Postdoctorate, Research

Type: Fellowship

Value: Competitive personal salary support plus research support staff at the technical level, research expenses, capital equipment and a travel allowance for attendance at scientific conferences

Length of Study: Up to 4 years

Frequency: Annual

Study Establishment: A suitable university department or similar institution

Country of Study: United Kingdom

Application Procedure: Applicants must submit a personal application. Forms and further details are available from the MRC

No. of awards offered: 40

Closing Date: 10 January

Funding: Government

No. of awards given last year: 10

No. of applicants last year: 40

Email: fellows@headoffice.mrc.ac.uk

Medical Research Council Senior Clinical Fellowship

Purpose: To enhance links between academia and industry in the provision of high-quality research training

Eligibility: Candidates should have graduated with a good Honours Degree from a United Kingdom academic institution in a subject relevant to the MRC's scientific remit. This should be an Upper Second Class (Honours) Degree or higher. The MRC will, however, consider qualifications or a combination of qualifications and experience that demonstrates equivalent ability and attainment, e.g. a Lower Second Class (Honours) Degree can be enhanced by a Master's degree. A copy of the regulations governing residence eligibility may be obtained from the Council

Level of Study: Postgraduate

Value: A tax-free maintenance stipend depending on United Kingdom location, university tuition fees up to the current DFEF recommended limit plus college fees, where applicable. Awards also include a fixed sum for conference travel expenses and a support grant to the university department to help cover incidental costs of students' training. As a measure of interest and involvement the industrial company is expected to make a financial contribution to the cost of the studentship

Length of Study: Up to 4 years

Frequency: Annual

Study Establishment: Universities, medical schools, industry and other academic institutions

Country of Study: United Kingdom

Application Procedure: The MRC does not make awards directly to students. Awards are made to industrial partners who apply for studentships by application. The individual or academic partner will then advertise for students to apply for their awards. Students who wish to apply for a studentship are advised to contact the department where they wish to study to see if it has an allocation of awards

No. of awards offered: 23

Closing Date: 10 July

Funding: Commercial

No. of awards given last year: 10

No. of applicants last year: 23

Additional Information: Applicants should ensure that they have read the MRC Industrial CASE Scheme Guidance Notes before completing their application. Please see the website for further details mrc.ukri.org/skills-careers/fellowships/clinical-fellowships/senior-clinical-fellowship-scf/

For further information contact:

Email: info@mun.ca
Website: www.mun.ca

Located in Canada's most easterly province, Newfoundland and Labrador, Memorial University of Newfoundland (MUN) offers a diverse selection of Graduate programmes leading to diplomas, Master's and Doctoral degrees in the arts, sciences, professional and interdisciplinary areas of study. Their goal is to promote excellence in all aspects of Graduate education in order to assist students to fulfil their personal goals and to prepare for a productive career.

School of Graduate Studies F. A. Aldrich Award

Purpose: To financially assist students with exceptional academic achievement to study further

Eligibility: Open to full-time Canadian students on the basis of exceptional academic achievement

Level of Study: Postdoctorate, Predoctorate

Type: Fellowship

Value: C\$2,000

Frequency: Annual

Study Establishment: Memorial University of Newfoundland

Country of Study: Any country

Additional Information: Please see the website for details www.mun.ca/sgs/current/scholarships/internal_nominated.php#sgsaldrich www.med.mun.ca/getdoc/359e8c84-8b04-48de-a8c4-f180bb039c61/School-of-Graduate-Studies-FA-Aldrich-Fellowship.aspx

The Dr Ethel M. Janes Memorial Scholarship in Education

Purpose: To aid students who want to specialize in reading and language arts and to those who want to make a career in research and teaching in primary and elementary education

Eligibility: Must be a full-time graduate student (not working more than 24 hours per week) in the area of Language and Literacy Studies for the Fall and Winter semesters

Level of Study: Graduate

Type: Scholarship

Value: C\$2,000

Frequency: Annual

Country of Study: Any country

Application Procedure: If you wish to be considered for this award please contact Darlene Flight (dflight@mun.ca)

Closing Date: 4 December

Additional Information: This scholarship will be awarded on the basis of academic standing in a first Memorial University of Newfoundland Education degree to a graduate student with a specialization in reading or language arts. In the event that in any given year no graduate student qualifies for the award, this scholarship will be awarded to an undergraduate student. Instalments of C\$1,000.00 each will be awarded in two successive academic terms; and the scholarship is renewable for two years, provided first-class standing is maintained. Training Graduate PhD Salary Award (TGP)

Purpose: Salary awards are offered to graduate students who are undertaking full-time research training in an area of clear relevance to arthritis and the Arthritis Society's new Strategic Plan 2020-2025: Accelerating Impact - Research Strategy which aims to identify research avenues that focus on areas of highest priority to patients and achieve the highest levels of scientific excellence and rigour. Applications must focus on innovative research efforts in the following priority areas.

Eligibility: 1. Be engaged in full-time training in research in a Canadian graduate school program leading to a PhD 2. Be within the first three years of a PhD training program at the time of the application deadline. 3. Be working on a research project with clear relevance to the research priority areas in the Arthritis Society's 2020-25.

Level of Study: Postgraduate

Type: Award

Value: 21,000

Application Procedure: All submissions will be screened for completeness and eligibility. Note that incomplete applications by the deadline will be deemed ineligible and withdrawn from the competition. It is the responsibility of the applicant to ensure that applications are complete at the time of submission.

Closing Date: 15 April

Miles Morland Foundation

Email: MMF@blakman.com

Website: www.milesmorlandfoundation.com

The MMF was set up by Miles Morland after a career investing in Africa through two companies he founded, Blakeney Management and DPI (Development Partners International). In the course of this career Miles has been surprised, entertained,

impressed, and humbled by the energy, wit, entrepreneurialism and talent of the Africans he has got to know.

Miles Morland Foundation Writing Scholarship

Purpose: To help meet this need the MMF annually awards a small number of Morland Writing Scholarships, with the aim being to allow each Scholar the time to produce the first draft of a completed book. The Scholarships are open to anyone writing in the English language who was born in Africa, or both of whose parents were born in Africa

Eligibility: The Scholarships are open to anyone writing in the English language who was born in Africa, or both of whose parents were born in Africa. To qualify for the Scholarship a candidate must submit an excerpt from a piece of work of between 2,000 - 5,000 words, written in English that has been published and offered for sale. This will be evaluated by a panel of readers and judges set up by the MMF. The work submitted will be judged purely on literary merit. It is not the purpose of the Scholarships to support academic or scientific research, or works of special interest such as religious or political writings. Submissions or proposals of this nature do not qualify.

Type: Scholarships

Value: £18,000, paid monthly

Length of Study: 12 Months

Frequency: Annual

Closing Date: 1 July

Additional Information: milesmorlandfoundation.com/about-2/

For further information contact:

Email: scholarships@milesmorlandfoundation.com

Minnesota Ovarian Cancer Alliance (MOCA)

The Minnesota Ovarian Cancer Alliance funds research, provides support to women and families, educates the medical community and raises awareness.

Tel: (1) 612 822 0500

Email: info@mnovarian.org

Website: mnovarian.org/

Contact: Kathleen Gavin, Executive Director, Minnesota Ovarian Cancer Alliance, 4604 Chicago Avenue, Minneapolis, MN 55407, United States of America.

Formed in 1999 by a group of ovarian cancer survivors, MOCA is a statewide non-profit that serves women and families from throughout the Upper Midwest.

National Early Detection of Ovarian Cancer Research Awards 2020

Purpose: The Minnesota Ovarian Cancer Alliance will award two grants in November 2020 to support research on early detection of ovarian cancer.

Eligibility: Research proposals may be for individual projects or part of a larger research project related to early detection of ovarian, primary peritoneal or fallopian tube cancer. Awards are available to researchers working anywhere in the U.S. Project funding is available for one year of activity

Level of Study: postgraduate

Type: Grant

Value: US\$50,000

Frequency: Annual

Country of Study: United States of America

Application Procedure: Proposals must be paginated and include the following: Cover letter should include the grant title, the PI's name and direct contact information. Abstract of proposed research, including rationale of the study (you do not need to include an explanation of why ovarian cancer is worthy of being studied or basic statistics on ovarian cancer as these are very familiar to all our reviewers), significance of research, explanation as to why this is innovative (if it is), aims, and a brief overview of research design and methods. Summary of proposed research (one paragraph) which describes the proposed research in terms an educated layperson would understand and describes the significance of the research to the patient population. Research proposal, not to exceed 6 pages. Additional supporting information may be provided in addendum form if deemed essential. Budget should include category of expense and include a rationale for each budget item. MOCA funds can be used for PI salary, conference travel and publication costs as deemed necessary by PI. Salary costs should be detailed. MOCA funds cannot be used for indirect costs. Information about PI, including: Biographical statement of personal career goals of PI (one page) Contact information, including direct phone number and email address Curriculum vitae (resume), including education, honors, professional experience, publications, grants Biographical sketch format is acceptable Letter of recommendation from the relevant person overseeing the institution,

department, or lab where the research will be conducted. Project timeline detailing the expected chronological progress of research aims. Review of similar studies, including similar studies underway or pending which might influence subject accrual or funding.

Contact: The Chief Executive

Montessori St Nicholas offer grants and awards under a scholarship scheme for Post Graduate Students carrying out research or training in Montessori teaching. Annual awards total £60,000 on average.

The Birts Scholarship

Purpose: To recognise and encourage research into Montessori teaching

Eligibility: United Kingdom Citizens holding a United Kingdom recognised degree

Level of Study: Graduate

Type: Scholarship

Value: £4–6,000

Length of Study: 2 years

Frequency: Annual

Country of Study: United Kingdom

Application Procedure: By application form from the charity and interview

No. of awards offered: 12

Closing Date: 1 July

Funding: Private

No. of awards given last year: 1

No. of applicants last year: 12

Morton Cure Paralysis Fund

Morton Cure Paralysis Fund Research Grant

Subjects: Spinal cord injury and other disorders of the central nervous system

Purpose: The Morton Cure Paralysis Fund (MCPF) is committed to developing effective therapies (cures) for paralysis associated with spinal cord injury and other disorders of the central nervous system.

Type: Research grant

Value: Most research awards range from US\$5,000 to US\$75,000 and are based on one-year contracts

Length of Study: One or two years

Frequency: Annual

Country of Study: Any country

Application Procedure: Please provide the relevant information and send to info@mcpf.org

Closing Date: 30 April and 31 October

Additional Information: A second year may be considered contingent upon the grantee submitting a six-month progress report, a 12-month progress report and a continuation application that is favorably reviewed by MCPF's Grant Committee. www.mcpf.org/Pages/Resources.aspx

Motor Neurone Disease Association

PO Box 246, Northamptonshire, Northampton, NN1 2PR, United Kingdom.

Tel: (44) 16 0461 1873

Email: research.grants@mndassociation.org

Website: www.mndassociation.org

Contact: Dr Sadie Vile, Research Grants Manager

The Motor Neurone Disease Association supports research on fundamental aspects of motor neurone disease (MND) and on its management and alleviation. It provides information and advice to patients and carers, and runs a nationwide care service. MND paralyzes selectively or generally and is fatal, irreversible and at present, incurable.

Motor Neurone Disease Association Non-Clinical Fellowship Awards

Subjects: Research on all aspects of Motor Neurone Disease in all relevant disciplines. These Fellowships are not open to clinicians.

Purpose: To allow Post-Doctoral Scientists with some experience of MND research to develop their career further.

Funded Fellowships will support research aimed at understanding the causes of MND,

Eligibility: Restricted to researchers at post-doctoral level to work at a suitable institute in the UK or Republic of Ireland. Applicants must be entitled to remain in the UK/Ireland for the whole period of the grant if awarded. For Junior Fellowships, applicants should have 2-6 years post-doc experience at the time of commencement of the grant. For Senior Fellowships, applicants should have 4-10 years post-doc experience at the time of commencement of the grant. In considering the periods, allowance is made for career breaks, family leave etc. **Level of Study:** Postdoctorate, Professional development, Research

Type: Fellowship

Value: Junior Fellowships: Max £90,000 per year, for 3 years. Senior Fellowships: Max £110,000 per year, up to 4 years.

Length of Study: Up to 4 years

Frequency: Annual

Study Establishment: University and other suitable research institute

Country of Study: United Kingdom, Republic of Ireland

Application Procedure: Applicants must submit a summary of their proposal, which is first checked for eligibility and considered by three members of the research advisory panel (RAP). Full applications are invited thereafter and application forms are provided. Full applications will be considered by a minimum of two independent external referees and then by the Biomedical Research Advisory Panel (BRAP). Please see the website at www.mndassociation.org/research/forresearchers for full details of the application processes, together with grant guidelines and terms and conditions.

No. of awards offered: Usually 2, typically one senior and one junior

Closing Date: 30 April

Funding: Trusts, Individuals

No. of awards given last year: 2 in 2018 (1 Junior Fellowship and 1 Senior Fellowship), only 1 award in 2019 as no suitable application for a Senior Fellowship

No. of applicants last year: 11 full applications in 2018, 4 full applications in 2019

Additional Information: The lead applicant should be the potential fellow, currently a post-doctoral scientist. The head of the proposed host laboratory should be a co-applicant www.mndassociation.org/research/for-researchers/apply-for-funding/

For further information contact:

Motor Neurone Disease Association, Francis Crick House, 6 Summerhouse Road, Moulton Park, Northampton, NN3 6BJ, United Kingdom.

Tel: (44) 1604 611846

Motor Neurone Disease Association PhD Studentship Award

Subjects: Research on all aspects of Motor Neurone Disease in all relevant disciplines.

Purpose: To attract promising science graduates to develop a career in MND related research and to support research aimed at understanding the causes of MND, elucidating disease mechanisms and facilitating the translation of therapeutic strategies from the laboratory to the clinic.

Eligibility: Restricted to researchers based in laboratories in the United Kingdom and Republic of Ireland. Applicants must be entitled to remain in UK/Ireland for the whole period of the grant if awarded. The applicant should be the supervisor, not the potential student.

Level of Study: Doctorate, Graduate, Postgraduate, Research

Type: Studentship

Value: The Association will provide a student stipend of £16,000 per year (£17,000 in London), £8,000 per year for laboratory expenses and a total budget of £1,000, over 3 years, for conference attendance. The Association will also cover relevant tuition/bench fees at the rate payable by UK/European students.

Length of Study: 3 years

Frequency: Annual

Study Establishment: University and other suitable research institute

Country of Study: United Kingdom, Republic of Ireland

Application Procedure: Applicants must submit a summary of their proposal, which is first checked for eligibility and considered by three members of the research advisory panel (RAP). Full applications are invited thereafter and application forms are provided. Full applications are submitted to two or more independent referees and then to the RAP for consideration. Please see our research governance overview at www.mndassociation.org/research/for-researchers/apply-for-funding/ for information on our grant application processes. The summary application form will be available on our website from mid-March to be completed online.

No. of awards offered: Between 1 and 4

Closing Date: 30 April

Funding: Trusts, Individuals

No. of awards given last year: 5 awarded in 2019. This was exceptional as no studentships were awarded in 2018, so some budget was carried forward.

No. of applicants last year: 13 full applications were considered

Additional Information: The studentships are awarded on the basis of scientific merit and the value of research training offered. The applicant must be the potential supervisor not the student. www.mndassociation.org/research/for-researchers/apply-for-funding/

For further information contact:

Motor Neurone Disease Association, Francis Crick House, 6 Summerhouse Road, Moulton Park, Northampton, NN3 6BJ, United Kingdom.

Tel: (44) 1604 611846

Motor Neurone Disease Association Research Project Grants

Subjects: Research on all aspects of Motor Neurone Disease in all relevant disciplines.

Purpose: To understand and research the cause and effective treatments of MND. To fund research to the highest scientific merit and greatest clinical or translational relevance to MND.

Eligibility: Overseas applicants must have a project that is unique in concept or design and that involves significant aspect of collaboration with an institute in the United Kingdom or the Republic of Ireland. The applicant must be eligible to remain employed at the host research institution for the period of the grant if awarded.

Level of Study: Postdoctorate, Professional development, Research

Type: Project Grant

Value: £85,000 per year, maximum

Length of Study: Between 1 and 3 years

Frequency: Annual

Study Establishment: A research institution, including universities and hospitals

Country of Study: Any country

Application Procedure: Applicants must submit a summary of their proposal, which is first checked for eligibility and considered by three members of the research advisory panel (RAP). Full applications are invited thereafter and application forms are provided. Full applications are submitted to two or more independent referees and then to the RAP for consideration. Please see our research governance overview at www.mndassociation.org/research/for_researchers for information on our grant application processes. The summary application form for project grants will be available on our website from mid-September to be completed online.

No. of awards offered: Varies with quality of applications and availability of funds

Closing Date: 23 October

Funding: Trusts, Individuals

No. of awards given last year: 6

No. of applicants last year: 31 Full applications

Additional Information: The majority of grants are awarded to applicants based in the United Kingdom, Republic of Ireland, any country. However, overseas applicants may apply. Two of the grants awarded in 2016 are based outside the UK with appropriate UK collaboration. www.mndassociation.org/research/for-researchers/apply-for-funding/

Mott MacDonald Charitable Trust Scholarships

Purpose: To enable a recipient to pursue studies and thus contribute to the advancement of engineering technology

Eligibility: Open to engineering students who wish to further their academic training at the postgraduate level. Students returning to academic training after a period of employment are preferred

Type: Scholarship

Value: Please consult the organization

Frequency: Annual

Study Establishment: Any university

Country of Study: United Kingdom

Application Procedure: Applicants must complete an application form, available on request from the main address

No. of awards offered: 129

Closing Date: 31 March

Funding: Commercial

No. of awards given last year: 4

No. of applicants last year: 129

MQ Mental Health

One in four people in the UK is living with a mental health condition. That's nearly 15 million people with an illness that affects their wellbeing, their relationships with family and

friends, and their ability to work. For many the experience can be painful, exhausting and isolating. Despite extraordinary advances in treating physical health conditions, progress in understanding mental illness, and research into its causes, treatments and prevention, is nowhere near equal. In fact it falls woefully short, leaving millions of people worldwide without the help and support they need. We're here to change that. We are the leading charity funding much-needed scientific research to transform the lives of everyone affected by mental illness. And with our community of supporters and an international network of talented researchers we can make this a reality.

Email: info@mqfoundation.org

Website: www.mqmentalhealth.org/

The MQ Foundation was launched in 2018 by its founder and chairman, and noted philanthropist John Herrmann, a long-time leader of mental health charities in New York. A member of the MQ: Transforming Mental Health Board of Trustees since 2017, John notes: "I was so impressed by MQ's direct approach to mental health research that I vowed to bring this organization to the attention of donors in the US as well... we must work together to achieve better treatments." The mission of the MQ Foundation is closely aligned with that of the preeminent UK-based organization, MQ: Transforming Mental Health (MQ). As the exclusive US partner of MQ, the MQ Foundation is now poised to "promote, advance, foster and support mental health research into the nature, cause, diagnosis, treatment, cure and prevention of all forms of mental illness and to promote public awareness and support for this research"

MQ Fellows Awards 2020

Purpose: The Fellows Award supports talented researchers with bold ideas from across the globe, who aspire to be the next generation leaders in mental health research, as they establish their independence. MQ seeks to fund a diverse research portfolio that reflects a bio-psycho-social approach to mental health. The MQ Fellows Awards are open to researchers anywhere in the world and from all disciplines related to mental health research. Research may involve theoretical, experimental, social sciences or medical humanities approaches. Aligning with the work of our Brighter Futures Programme, applications to the 2020 MQ Fellows Award must have a focus on children and young people (which we define as from prenatal development up to 24 years of age). Projects should focus on genuine impact by charting, informing, developing and/or testing preventative or therapeutic interventions.

Eligibility: The MQ Fellows Award is designed to support early career researchers investigating questions that will ultimately improve the quality of life for people affected by mental illness. Applicants will have made an outstanding start to their research career as demonstrated by their research results and career track record to date. We are seeking applicants who are establishing their independence through their intellectual efforts and leadership. Researchers need to be fully committed to this path and at a career stage that demonstrates this commitment. Applicants will be able to demonstrate that they are either newly independent or will be independent by the time the awards are finalised in the summer of 2020. This award is not suitable for stand-alone 3-year post-doctoral research projects. Applicants must be early career researchers wishing to establish their independence: with a PhD, DPhil, DClinPsy, MBBS, MD or equivalent have accumulated 3-7 years by January 2020 through whole-time-equivalent research experience, equivalent in nature to post-doctoral research be able to show that this award will help to establish your independence relative to your current position

Level of Study: postgraduate

Type: grant

Value: £225,000

Frequency: Annual

Country of Study: UK

Application Procedure: The 2020 MQ Fellows Awards follow a 3-stage application process. Stage 1: Expression of Interest Applicants are required to complete and submit a Stage 1 Expression of Interest application form. This must be submitted through MQ's online application system by the deadline of Friday 3rd April at 17:00 BST (GMT +1). The Stage 1 Expression of Interest is comprised of a short application, an abbreviated curriculum vitae form, and a statement of support and signature from the applicant's Head of Department (HoD). Please ensure that sufficient time is left to obtain HoD authorisation before the relevant deadline. Applications will be reviewed by the MQ Research Team and the MQ Fellows Award Panel. Applications that do not meet the submission criteria will not be processed further. Applicants will be informed of the results of Stage 1 review by the end of May. Stage 2: Invited Proposal Shortlisted applicants will be invited to participate in Stage 2 of the process, by submitting a full application with a detailed scientific proposal including how PPI has been considered in the design of the project, along with a full budget. Applicants are asked to propose scientific mentor(s) for their project, who can be from any field, and whose research is pertinent to the proposed project. Deadline for invited proposals is Friday 3rd July at 17:00 BST (GMT+1) Applications must have the support of your Head of Department and be approved by grants or finance officer before the deadline. Stage 2 Invited Proposals will be further reviewed, scored and ranked by the MQ Fellows Award Panel, external and lay reviewers. Those successful at this

stage will be invited attend an interview. Stage 3: Invited Interview Finalists will be interviewed by the MQ Fellows Award Panel the week commencing 21st September, in London, UK. By submitting a Stage 2 Invited Proposal, applicants verify their ability to participate in the interview process, and be able to accept an offer of funding under the highlighted terms and conditions associated with the Award, should an offer be made. Final decisions for the 2020 MQ Fellows Awards will be made by the MQ Fellows Award Panel in October, on the basis of applicant's Stage 2 Invited Proposal, external review and performance at interview.

Closing Date: 3 April

Multiple Sclerosis Society of Canada (MSSC)

175 Bloor Street East, Suite 700, North Tower, Toronto, ON M4W 3R8, Canada.

Tel: (1) 416 922 6065

Email: jackie.munroe@msssociety.ca

Website: www.msssociety.ca

Contact: Ms Jackie Munroe, Research Grants Programme Manager

The mission of the MSSC is to be a leader in finding a cure for multiple sclerosis and enabling people affected by the disease to enhance their quality of life.

Multiple Sclerosis Society of Canada Donald Paty Career Development Award

Purpose: To support the salary of an independent researcher whose research is relevant to MS

Eligibility: This award is open to those that hold a doctoral degree (PhD, MD or equivalent) and who have recently completed their training in research and are in the early stages of independent research relevant to MS. Applicants must hold a Canadian university faculty appointment and either holds an operating grant from the MSSOC or another funding agency

Level of Study: Postdoctorate

Value: The amount provided per year for the award is C\$50,000

Length of Study: 3 years

Frequency: Annual

Study Establishment: A Canadian school of medicine/recognized institution

Country of Study: Canada

Application Procedure: All Applicants for regular research grants are required to use the website www.mscanadagrants.ca/ for the completion of their proposal. All components of the application must be submitted through the online system. No hard copies of any documentation will be accepted

No. of awards offered: 5

Closing Date: 1 October

Funding: Private

No. of awards given last year: 1

Murdoch University

Murdoch University is a public university in Perth, Western Australia with campuses also in Singapore and Dubai. University has more than 22,000 students and 2,000 staff from across 90 different countries with a desire to discover, use their imaginations and ultimately make a difference.

International Postgraduate Research Studentship (IPRS) at Murdoch University in Australia

Purpose: The purpose is to undertake the degree of Doctor of Philosophy (PhD) and Doctor of Education (EdD) at Murdoch University in areas in which the University has specialized research strengths. Preference will be given to PhD candidates

Eligibility: An applicant must provide evidence of having achieved Murdoch University English language proficiency requirements. These requirements are IELTS Academic 6.5 - no individual band less than 6.0 or TOEFL iBT 90 - no individual band less than 20. Exceptions are Nursing, Education and Pharmacy with an IELTS requirement of 7.0

Level of Study: Doctorate

Value: The scholarships cover the research degree tuition fees and health insurance premiums

Country of Study: Singapore

Application Procedure: Visit website our.murdoch.edu.au/Research-and-Innovation/Resources-for-students/Future-research-students/Admission-and-scholarships/International-student-scholarships/IPRS/

Closing Date: 30 September

Additional Information: Applicants who have had sustained contact with a potential academic research supervisor at Murdoch University prior to submission of their application will be considered favourably scholarship-positions.com/international-postgraduate-research-studentship-iprs-murdoch-university-australia/2017/01/28/

International Welcome Scholarships (IWS)

Purpose: International Welcome Scholarships are open to eligible international students who choose to study a Murdoch University Bachelor, Honours or Postgraduate Coursework degree programme

Eligibility: Citizen of Bangladesh, Bhutan, China, India, Indonesia, Malaysia, Nepal, Pakistan or Sri Lanka can apply for these scholarships

Type: Postgraduate scholarships

Value: AU\$10,000 for all Business and Governance eligible degree courses AU\$11,000 for the Bachelor of Nursing course AU\$7,000 for all other eligible degree courses

Study Establishment: Scholarships are available for all Business and Governance eligible degree courses and for all other eligible degree courses

Country of Study: Australia

Application Procedure: To be considered for a scholarship, applications for entry to an eligible course need to be submitted to the international admissions office at least two weeks prior to the start of the semester that the student intends to commence their studies at Murdoch

Additional Information: For more details please visit the website www.sofri.com/blog/en/international-welcome-scholarship-iws-by-murdoch-university/?q=/blog/en/international-welcome-scholarship-iws-by-murdoch-university
