### Acknowledgements

For all of those who have referred to my paper entitled "Entrepreneurship and Resource Allocation," which appeared in the January–March 1990 issue of the *Eastern Economic Journal*, I wish to cite an additional and relevant source that I neglected to cite with my article. This source is entitled "The Entrepreneurship Market Model" (1985), written by Marc F. Monyek as a requirement for the B.A. degree he received with honors in economics from Washington and Lee University. Having served as one of his thesis advisers, I am grateful to Mr. Monyek whose work on this paper stimulated my interest in the economics of entrepreneurship and inspired my own efforts to extend our understanding of the allocation of entrepreneurial resources.
