

Organizational Psychology – National Women at Work Conference

This international working conference for feminist researchers, writers, lecturers and practitioners in industry, commerce, HE/FE, consultancy and the professions will enable women-centred decisionmakers and administrators to explore common themes, examine inherent conflicts and to look at our own theoretical developments and practical strategies in employee relations, systems analysis, management, bureaucracy and organizational behaviours. For details write to Sandra Oliver, Faculty Office, Thames Polytechnic, Oakfield Lane, Dartford, Kent DA1 2SZ.

Apologies to Lesley Doyal

The *Feminist Review* collective sends sincere apologies to Lesley Doyal both for misspelling her name and for giving inaccurate information in the biographical note to her article in *Feminist Review* No. 27. Lesley has recently taken up a position in the Department of Nursing, Health and Applied Social Studies at Bristol Polytechnic; she was also one of the founders of WHIC, the Women's Health Information Centre. We deeply regret the mistakes, and the embarrassment caused.
