

## *Erratum*

The Society is grateful to Pat Rivett for pointing out an error in the citation prepared for Peter Whittle on his nomination to the Companionship of Operational Research (see page 244 of this volume). Professor Whittle was not the first person in the UK to be awarded the Lanchester Prize by the Operations Research Society of America as it had been awarded previously to Professor Alec Lee in 1959 and Professor Stafford Beer in 1966. We trust that those concerned will accept the Society's apologies for this error.
