

Table 4.1 Output of the production industries

Average 2006 = 100												
Summary - Seasonally adjusted												
	Mining and quarrying			Food, drink and tobacco	Textiles, leather and clothing		Chemicals and man-made fibres	Basic metals and metal products	Engineering and allied industries	Other manufacturing	Electricity, gas and water	
	Total production industries	Mining and quarrying	Total manufacturing industries		Textiles, leather and clothing	Coke ref and nuclear fuels

Note: The figures contain, where appropriate, an adjustment for stock changes. Please note that Periods open to revision are from January 2010 this round.

Please note that Periods open to revision are from October 2010 this round.

1 Unadjusted data may be obtained from the Office for National Statistics, IOP Branch, Government Buildings, Cardiff Road, Newport NP10 8XG.

2 These sum to the total of 1 000 for the production industries.

3 Includes adjustments to standardise the length of months.

1 Excludes iron foundries and refined iron works.

2 Including manganese ore.

3 Includes blast furnace ferro-alloys.

4 Includes blast furnace ferro-alloys, but excludes iron foundries and refined iron works.

5 Stocks of ingots, semi-finished and finished steel.

1 The data for tables 4.5 - 4.7 (and published in the Turnover and Orders in Production and Services Industries) Standard are based on SIC 2007 (the Industrial Classification for 2007). The change is a result of the SIC 2003 based MPI survey (which provided figures up to the April edition of the Monthly Digest) becoming part of the SIC 2007 based Monthly Business Survey (MBS). This is part of an ONS wide project to convert all data series to the latest SIC. This means that the three engineering tables: 4.5 Total engineering (SIC 03 29-33);

4.6 Manufacture of machinery and equipment not elsewhere classified (SIC 03 29); 4.7 Manufacture of electrical and optical equipment (SIC 03 30-33) have been replaced with: 4.5 Total engineering (SIC 07 25-28); 4.6 Manufacture of fabricated metal products and machinery and equipment n.e.c. (SIC 07 25, 28); 4.7 Manufacture of electrical and optical equipment (SIC 07 26-27). Please note these new tables do not include Orders on Hand.

Table 4.6 **Manufacture of fabricated metal products and machinery and equipment n.e.c.¹**

¹ The data for tables 4.5 - 4.7 (and published in the Turnover and Orders in Production and Services Industries) Standard are based on SIC 2007 (the Industrial Classification for 2007). The change is a result of the SIC 2003 based MPI survey (which provided figures up to the April edition of the Monthly Digest) becoming part of the SIC 2007 based Monthly Business Survey (MBS). This is part of an ONS wide project to convert all data series to the latest SIC. This means that the three engineering tables: 4.5 Total engineering (SIC 03 29-33); 4.6 Manufacture of machinery and equipment not elsewhere classified (SIC 03 29); 4.7 Manufacture of electrical and optical equipment (SIC 03 30-33) have been replaced with: 4.5 Total engineering (SIC 07 25-28); 4.6 Manufacture of fabricated metal products and machinery and equipment n.e.c. (SIC 07 25, 28); 4.7 Manufacture of electrical and optical equipment (SIC 07 26-27). Please note these new tables do not include Orders on Hand.

1 Classified to construction in the Standard Industrial Classification 2007.

2 Including the value of speculative building when work starts on site.

3 Excluding orders for home improvement work.

4 Construction new orders underwent significant development during 2008/09 resulting in a new quarterley survey from 2010.

5 Excluding infrastructure.
