Note: ONS has introduced methodological changes to the Index of Production from March 2008 (January 2008 data). Also, a new industry structure means that the level of detail published is reduced. For the textile and clothing sector, industries are no longer available at the full level of disaggregation. Further information can be found on the NS website at - <http://www.statistics.gov.uk/ci/article.asp?id=1908>.
