Response to González-Henríquez and Saavedra-Santana

We are very pleased to have the opportunity to review the interesting development reported by Gonzalez-Henriquez and Saavedra-Santana in their paper that was influenced by our earlier paper.¹

It might be of interest to Gonzalez-Henriquez and Saavedra-Santana to review some of our subsequent work that had as its foundation our 1992 paper and that has recently appeared.^{2,3}
