

## VIEWPOINTS INDEX

- Achary, K. K.:  
(see Geetha, K. K.)
- Balkhi, Z. T., Goyal, S. K. and Giri, B. C.:  
Some notes on the optimal production stopping and restarting times for an EOQ model with deteriorating items, 1300
- Bonney, M.:  
(see Jaber, M. Y.)
- Brimberg, J., ReVelle, C. and Rosing, K. E.:  
Response, 241
- Chang, H.-J. and Dye, C.-Y.:  
Response from Chang and Dye, 598
- Dye, C.-Y.: Response, 239
- Dye, C.-Y.:  
(see Chang, H.-J.)
- Floyer, J. N.:  
Comment on Johnston (2000). Commentary on Burgin and Wild (1967): Stock control-experience and usable theory. *J Opl Res Soc* 51: 1111, 844
- Ganeshan R.:  
Are more suppliers better?: Generalizing the Guo and Ganeshan procedure, 122
- Geetha, K. K. and Achary, K. K.:  
Reply to Ganeshan, 123
- Giri, B. C.:  
(see Balkhi, Z. T.)
- Giri, B. C.:  
(see Goyal, S.K.)
- Giri, B. S.:  
(see Moon, I.)
- González-Henríquez, J. J. and Saavedra-Santana, P.:  
Comment on Makis and Jardine (1992): Optimal replacement policy for a general model with imperfect repair, 1298
- Goyal, S. K.:  
A commentary on Yan and Cheng (1998). Optimal production stopping and restarting times for an EOQ model with deteriorating items. *J Opl Res Soc* 49: 1288–1295, 599
- Goyal, S. K.:  
(see Balkhi, Z. T.)
- Goyal, S. K. and Giri, B. C.:  
A comment on Chang and Dye (1999): Optimal EOQ model for deteriorating items with time-varying demand and partial backlogging, 238
- Jaber, M. Y. and Bonney, M.:  
A comment on ZhouYW and Lau H-S (1998). Optimal production lot sizing model considering the bounded learning case and shortages backordered. 49: 1206–1221, 584
- Jaber, M. Y. and Bonney, M.:  
Comments on Zhou and Lau's reply, 591
- Jardine A. K. S.:  
Response to González-Henríquez and Saavedra-Santana, 1299
- Jones, D. F.:  
(see Romero, C.)
- Jones, D. F.:  
(see Tamiz, M.)
- Lau, H.-S.:  
(see Zhou, Y.-W.)
- Mercer, A.:  
A comment on Brimberg and ReVelle (2000): The maximum return-on-investment plant location problem, 240
- Moon, I. And Giri, B. S.:  
Comment on Bose S, Goswami A and Chaudhuri KS (1995): An EOQ model for deteriorating items with linear time-dependent demand rate and shortages under inflation and time discounting, 966
- Munro, I.:  
A contribution to the Ormerod/Jackson debate, *J Opl Res Soc* 51: 882–886 *JORS* wars: a step into no mans land, 363
- Ogryczak, W.:  
Comments on Romero C, Tamiz M and Jones DF (1998): Goal programming, compromise programming and reference point method formulations: linkage and utility interpretations, 960
- Ogryczak, W.:  
Comments on Reply by Romero et al, 963
- Ormerod, R. J.:  
The success and failure of methodologies—a comment on Connell (2001): evaluating soft OR, 1176
- ReVelle, C.:  
(see Brimberg, J.)
- Romero, C.:  
(see Tamiz, M.)
- Romero, C., Tamiz, M. and Jones, D. F.:  
Reply to Professor Ogryczak, 962
- Rosing, K. E.:  
(see Brimberg, J.)
- Saavedra-Santana, P.:  
(see González-Henríquez, J. J.)
- Scott, J. L.:  
Education and a future for OR—a viewpoint, 1170
- Sinha, S.:  
A comment on Anandalingham (1988). A mathematical programming model of decentralized multi-level systems. *J Opl Res Soc* 39: 1021–1033, 594
- Tamiz, M.:  
(see Romero, C.)
- Tamiz, M., Jones, D. F. and Romero, C.:  
Final reply to the comments of Professor Ogryczak, 964
- Wang, S.-P.:  
A note on Chang H-J and Dye C-Y (1999). An EOQ model for determining items with time varying demand and partial backlogging. *J Opl Res Soc* 50:1176–1182, 597
- Zhou, Y.-W. and Lau, H.-S.:  
Reply to Jaber and Bonney, 590
- Zhou, Y.-W. and Lau, H.-S.:  
Response to Jaber and Bonney's comments, 593
