Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

Due to an unfortunate oversight the sentence ‘The results of the upgrading strategy suggest that ‘action research’ can become a strategic tool for experimenting with alternative strategies in the revitalisation of informal settlements’ in the abstract section should read:

‘The results of this work suggest that ‘action research’ can become a critical tool for experimenting with alternative strategies in the revitalisation of informal settlements’.

The original article has been corrected.
