Fig. 7 GDP per capita, total factor productivity and investment in new products, processes or services at the country level. *Note* Data on all firms are pooled from the three waves of EIBIS (waves 2016, 2017 and 2018) to construct an average of total factor productivity for each country. Firms in EIBIS are weighted with value added. *Source:* Authors' calculations based on Eurostat and EIB Investment Survey (EIBIS)
