

1985 Spring Conference on Experimental Mechanics

June 9-13, 1985

Riviera-Las Vegas Hotel

Las Vegas, Nevada

Join SESA in Las Vegas next spring. This memorable meeting will consist of mini-conferences on a wide range of experimental-mechanics topics. All of the technical sessions will convene in the luxurious Riviera-Las Vegas. The Las Vegas site enables SESA to provide the highest quality conference location at the lowest possible cost. This feature, combined with pleasant temperatures and a wide choice of entertainment activity should make the 1985 Spring Meeting most enjoyable.

The technical program will include a balanced representation of all aspects of experimental mechanics. Both research and application papers in the following areas are sought:

- | | |
|--|---|
| (1) Acoustics and Noise Control | (9) Measuring Devices, Testing Machines and Systems |
| (2) Biomechanics and Life Science | (10) Photoelasticity and Photoplasticity |
| (3) Modal Analysis | (11) Residual Stress |
| (4) Composite and Reinforced Materials | (12) Strain Gages |
| (5) Fatigue | (13) Transducers |
| (6) Fracture Mechanics | (14) Vibrations |
| (7) Optical Methods | (15) Other |
| (8) Materials Testing and Evaluation | |

Submission of Abstracts

Conference papers will be selected on the basis of abstracts. Authors must submit a 500-word abstract **NO LATER THAN September 1, 1984.**

SESA divides its technical program into two major categories: Research and Application. Research papers describe original investigations in mechanics which are wholly or partly experimental in nature or present new experimental techniques. Application papers emphasize how to use existing technology for the solution of a practical problem in experimental mechanics. Please designate which is the most appropriate category for your paper as well as the keyword(s) from the above list which best describes the emphasis of the paper. Mail abstracts to:

David Dillard/SESA
c/o Research Committee
14 Fairfield Drive
Brookfield Center, CT 06805

or

Burke Dykes/SESA
c/o Applications Committee
14 Fairfield Drive
Brookfield Center, CT 06805

Authors will be notified of acceptance or rejection by December 15, 1984. Authors of accepted papers will be asked to prepare a 50-word abstract for the published technical program, and a 5- to 6-page paper typed according to a specified format by March 1, 1985 for inclusion in the Conference proceedings.

For more information regarding the conference, contact Kathy Ramsay, conference coordinator, SESA, 203-775-6373.
