

## SEM IX INTERNATIONAL CONGRESS AND EXPOSITION UPDATE

The exhibit hall was well attended for the SEM IX International Congress and Exposition in Orlando, Florida. We would like to extend a sincere thank you to BLH Electronics, Inc., Hysitron, Inc., Stress Photonics, Inc., and Capacitec, Inc. for sponsoring the Continental Breakfast on Wednesday morning in the exhibit hall. Their support of SEM and the Congress is gratefully appreciated.

## CONGRATULATIONS TO PETER K. STEIN

Stein Engineering Services, Inc. is celebrating its 50<sup>th</sup> year. It was started in 1950 at M.I.T when Pete Stein became frustrated by the lack of preparation his education had provided for planning measurement systems, selecting transducers, organizing test procedures and harvesting provably valid data.

## MEMORIALS

**AUGUST J. DURELLI**  
(1910 - 2000)

A. J. Durelli, Murray Lecturer 1965, SEM Honary Member 1972, SEM Fellow 1975, passed away in Chevy Chase, MD, Mar. 18, 2000.

Memorial contributions can be made to The Shrine of the Most Blessed Sacrament, Capital Fund Campaign, 6001 Western Avenue, NW, Washington, DC 20015.

## FRANK J. MCCORMICK

(1906 - 2000)

SEM lost a long time member when Frank J. McCormick passed away May 17, 2000. He started his long career in Applied Me-

chanics at Kansas State College. According to SEM Member Stu Swartz, Frank's main interest of study was experimental mechanics. He was elected an SEM Fellow in 1976. His quick wit and good sense of humor will be missed. ■

## Kistler wrote the book on Multi-Component Force Sensors.

For more than 30 years Kistler has been the leading innovator in multi-component force sensors for applications from assembly to machining to force limited vibration.

- World's greatest offering of multi-component force sensors
- Extremely wide measuring range – from <1 ounce to >10 tons
- Measures forces and moments – simultaneously
