Received February 15, 2006

DOI: 10.1134/S0001437006020172

1. Throughout the paper, the molar concentrations should be in $\mu\text{mol/l}$ (or μM) rather than in μmol , and the gradients of concentrations should be in $\mu\text{M/m}$.

2. Throughout the paper, *wedging out* should read *onset*.

3. On pp. S61 and S72, conventional units should read kg/m^3 .
