ERRATA

Erratum: “Determination of Parameters of Phase Element under Conditions of Multiray Interference” [*Optics and Spectroscopy* 109 (3), 428 (2010)]

N. D. Kundikova, I. I. Popkov, and A. M. Popkova

Received December 2, 2010

DOI: 10.1134/S0030400X11030180

Formula (4) should read

$$\begin{aligned}
 F &= \frac{\sqrt{I(0^\circ) + I(90^\circ)} - \cos^2 \theta}{\sin \theta}, \\
 \cos \Gamma &= \frac{\sin \theta \left(I(0^\circ) - I(90^\circ) + \cos 2\theta \left(I(0^\circ) + I(90^\circ) - 2 \cos^2 \theta \right) \right)}{2 \sin^2 2\theta \sqrt{I(0^\circ) + I(90^\circ)} - \cos^2 \theta}.
 \end{aligned}
 \tag{4}$$
