The name of the foraminiferal species *Janischewskina compressa* Grozdilova et Lebedeva, 1978 (p. 50) is a junior primary homonym preoccupied by *J. compressa* Sosnina et Nikitina, 1976 (p. 23). Therefore, according to Art. 52.1 of the ICZN ... (1999), we propose a new replacement name, *J. ladeinaensis* Stepanova et Gibshman, nom. nov., after the locality in the section of Ladeinaya Mountain (Kosva River, Middle Urals), for *J. compressa* Grozdilova et Lebedeva, 1978; the generic affinity of *J. ladeinaensis* nom. nov. (assigned to the genus *Janischewskina*) remains unchanged.

The authors are grateful to M.S. Afanasieva for consultations in preparing this paper. The study is supported by the Russian Foundation for Basic Research, project nos. 14-05-00774 and 15-05-06393.
