Received November 24, 2009

DOI: 10.1134/S1022795411140018

- P. 899, Abstract, line 1: *atypical* should read *nonstandart*
- P. 904, right column, paragraph 1, last line: *inhibits* should read *stimulates*
- P. 908, right column, section heading: *CIDE* should read *CODE*
- P. 909, left column, paragraph 2: *acetylation* should read *acylation*
- P. 909, right column, paragraph 1: *codon* should read *anticodon*
- P. 910, right column, paragraph 2: *atypical aminoacids* should read *unnatural aminoacids*.
