In our paper “Behavior of the Heat Capacity C_V at the Liquid–Vapor Critical Point and in the Two-Phase Region of a Thermodynamic System,” the first formula on p. 436 (left column) should be written as

$$\begin{aligned} C_P &= \left(\frac{\partial H}{\partial T} \right)_P = \left(\frac{\partial H}{\partial V} \right)_P \left(\frac{\partial V}{\partial T} \right)_P \\ &= - \left(\frac{\partial H}{\partial V} \right)_P \frac{(\partial P / \partial T)_V}{(\partial P / \partial V)_T}. \end{aligned}$$
