1. The author’s name should read Rozes rather than Rosez.
2. Throughout the text ethylene glycol monomethacrylate (EGM) should instead read 2-hydroxyethyl methacrylate (HEMA).
3. On p. 104 (Fig. 2b) the correct units of the x axis are Ω rather than Hz.
4. On p. 104 (right column, third row above the figure) and on p. 105 (left column, second row), the correct name of the initiator of radical polymerization is azobisisobutyronitrile (AIBN) rather than azoisobutyric acid dinitrile.
