In the published version there is an error in the formula of air flow rate per second in equation (8). The present form in this erratum is the correct:

$$Q_{\text{air}} = \frac{Q_{\text{vol}} \rho}{60}.$$

Further, in the published version there is an error in Fig. 14. The present form in this erratum is the correct:

Fig. 14. Criterial indicator k change with the depth during interval drilling in granite (Borok quarry).
