On page 337, the third and fifth legends in Figure 2 should read *Laminaria saccharina*, *Polymastia arctica*, respectively.

On page 339, the first column of Table 1

row 6 should read *Ahnfeltia plicata*
row 7 should read *Corallina* sp.
row 8 should read *Lithothamnion* sp.
row 19 should read *Pigospio elegans*
row 26 should read *Hiatella arctica*
row 27 should read *Mytilus edulis*
row 30 should read *Margarites groenlandicus*
row 36 should read *Asterias rubens*
row 40 should read *Molgula* sp.

In the second column of Table 1

row 6 should read *Rhodophyta*
row 40 should read *Ascidacea*

On page 340, the first column of Table 2

row 4 should read *Polysiphonia nigrescens*
row 5 should read *Rhodophyta* gen. sp.
row 6 should read *Rhodophyllus* sp.
row 15 should read *Leucosolenia complicata*
row 18 should read *Lucernaria quadricornis*
row 24 should read *Shizoporella limbata*
row 27 should read *Hiatella arctica*
row 29 should read *Nicania montagui*
row 30 should read *Margarites groenlandicus*
row 31 should read *Testudinalia tessellata*
row 38 should read *Ophiura robusta*

In the second column of Table 2

row 2 should read *Rhodophyta*
row 39 should read *Ascidacea*
