Figure 2, bottom panel should be:

Fig. 2. Maps of fractal properties of time series in region of Japanese islands in terms of mean values of fractal characteristic H_{DFA} for 2015. Top: H_{DFA} values on major time scales; bottom: same on minor time scales. (Space limitations of paper preclude us from reproducing full-color maps which complicates analysis to certain degree. Therefore, we subdivided entire range of H_{DFA} values into as few as four parts. This allowed us to clearly reveal intermediate and extreme ranges of values).
