Figures 2–5 on pages 279, 280 should be arranged in the following order:

Fig. 2. Effect of time of soaking on the water absorption (%) of treated blend Fabric (50/50) at fixed UV irradiation time 40 min.

Fig. 3. Permeable volume of the fabrics irradiated different time in UV light.

Fig. 4. Effect of UV irradiation time on the tensile strength of untreated blend fabric (50/50) and TiO_2 -treated ones at fixed time of soaking 60 min.

Fig. 5. Effect of UV irradiation time on the elongation (%) of treated blend fabric (50/50) at fixed time of soaking 60 min.
