Received June 13, 2021; revised June 13, 2021; accepted June 13, 2021.

DOI: 10.1134/S0022476621070209

Journal of Structural Chemistry hereby wholly retracts this article [1].

The author has plagiarized part of a paper that had appeared in another journal [2].

One of the conditions of submission of a paper for publication is that authors declare explicitly that their work is original and has not appeared in a publication elsewhere. As such this article represents a severe abuse of the scientific publishing system. The scientific community takes a very strong view on this matter and apologies are offered to readers of the journal that this was not detected during the submission process.

The online version of the original article can be found on <https://doi.org/10.1134/S0022476621040041>.
