QUESTIONS OF NOMENCLATURE

A New Replacement Name for *Millerella symmetrica* Postoyalko, 1991 (Foraminifera)

The foraminiferal species *Millerella symmetrica* Postoyalko, 1991 was originally described in the sub-genus *Millerella* of the genus *Eostaffella* (Postoyalko, 1991, pp. 77–78). *Millerella* is now considered to be a separate genus (Rausser-Chernousova et al., 1996), and the species described by Postoyalko fits its diagnosis. However, the name *Millerella symmetrica* (Postoyalko, 1991) is a junior homonym, preoccupied by *Millerella symmetrica* Manukalova-Grebenyuk, 1969 (Manukalova-Grebenyuk et al., 1969, p. 41). Therefore, in accordance with Article 52.1 of the *International Code of Zoological Nomenclature (ICZN)* (International..., 1999), I propose a new replacement name, *Millerella parasymmetrica* Stepanova, nom. nov., for *M. symmetrica* (Postoyalko, 1991).

FUNDING

The study was supported by State Grant to the Institute of Geology and Geochemistry, Uralian Branch, Russian Academy of Sciences, no. 0393-2016-0023.
