Received July 25, 2005

DOI: 10.1134/S003602440612034X

A fragment in the caption to Fig. 1 should read as “...(6) 60, (7) 50, (8) 100% ZrO₂”

In the section “Results and Discussion,” the reader should find “ $\sigma = ne^2\lambda^2\nu\gamma/kT\exp(-\Delta G^*/kT) = \dots$ ”
