A List of Journal Articles Published in 2008 and 2009 on Auxiliary Equipment

DOI: 10.1134/S0040601510080185

M. G. Abuov and P. A. Kovgan, “A Study of Heat-Transfer Processes in a Countercurrent Cyclone Heat Exchanger,” *Teploenergetika*, No. 12 (2009) [*Therm. Eng.*, No. 8 (2009)].

Yu. N. Agapov, V. G. Stognei, and M. A. Khaustov, “Selecting and Substantiating the Design of an Air Heater for a Small-Capacity Boiler Unit,” *Prom. Energ.*, No. 12 (2009).

V. Yu. Aleksandrov and K. K. Klimovskii, “A Procedure for Calculating Gas Ejectors,” *Teploenergetika*, No. 8 (2009) [*Therm. Eng.*, No. 8 (2009)].

V. Yu. Aleksandrov and K. K. Klimovskii, “Optimization of Multistage Gas Ejectors,” *Teploenergetika*, No. 9 (2009) [*Therm. Eng.*, No. 9 (2009)].

S. N. Anichkov, R. I. Giniyatullin, and A. M. Zykov, “Improving the Efficiency of Entrapping Fly Ash in Wet Ash Entrapping Apparatuses,” *Elektr. Stn.*, No. 8 (2009).

K. E. Aronson, Yu. M. Brodov, A. Yu. Ryabchikov, et al., “Experience Gained from Development of Modernized Oil Coolers for the Oil Supply System Used in 800-MW Turbines,” *Teploenergetika*, No. 8 (2009) [*Therm. Eng.*, No. 8 (2009)].

A. A. Avdeev, A. S. Shamarokov, and L. N. Fal'kovskii, “Header-Platen High-Pressure Heaters,” *Teploenergetika*, No. 2 (2009) [*Therm. Eng.*, No. 2 (2009)].

A. A. Bakulina and I. T. Ter-Mateosyants, “Pipeline Valves: the Direction of Motion,” *Akademiya Energetiki*, No. 4 (2009).

B. I. Basok, T. G. Belyaeva, A. A. Rutenko, and A. A. Lunina, “An Analysis of Economic Efficiency in Constructing Heat Pump Systems for Heat Supply Purposes,” *Prom. Teplotekhn.*, No. 4 (2008).

Yu. V. Belousov, S. F. Zhdanov, and S. E. Nikol'skii, “Modern Apparatuses Produced by OOO Gazkholodtekhnika for Air Cooling of Oil,” *Gazoturb. Tekhnol.*, No. 6 (2008).

A. V. Bilan and V. N. Bilan, “Making the Tube System of Horizontal Delivery Water Heaters More Reliable,” *Teploenergetika*, No. 9 (2009) [*Therm. Eng.*, No. 9 (2009)].

V. V. Burenin, “Purification and Neutralization of Dust-Gas-Air Emissions from Thermal Power Industry Enterprises,” *Prom. Energ.*, No. 8 (2009).

A. A. Chichirov, N. D. Chichirova, I. Yu. Silov, et al., “Mathematical Simulation of Material Flows in the

Circulation Cooling System of a Thermal Power Station,” *Izv. Vyssh. Uchebn. Zaved., Probl. Energetiki*, Nos. 5–6 (2008).

T. V. Derevyanko, V. M. Petukhov, I. M. Egorov, and A. N. Ignashin, “Specific Features Relating to Operation of the Ultrafiltration Plant at OAO Mosen-ergo's TETs-9 Cogeneration Station,” *Energetik*, No. 2 (2009).

A. V. Dmitriev, G. Kh. Gumerova, and N. A. Nikolaev, “Separating Carbon Dioxide from Gaseous Emissions Produced at Thermal Power Stations in Vortex Apparatuses Equipped with Rotating Porous Atomizers,” *Izv. Vyssh. Uchebn. Zaved., Probl. Energetiki*, Nos. 1–2 (2009).

V. K. Elsukov, “The Influence of Electrostatic Phenomena on the Efficiency of TsBR-150U Battery Cyclones,” *Prom. Energ.*, No. 2 (2009).

V. L. Fedyaev, A. B. Mozo, I. V. Morenko, et al., “The Operational Efficiency of Industrial Cooling Towers,” *Izv. Vyssh. Uchebn. Zaved., Probl. Energetiki*, Nos. 1–2 (2009).

V. L. Fedyaev, B. A. Snigirev, I. V. Morenko, et al., “Modernization of SK-1200 Cooling Towers,” *Izv. Vyssh. Uchebn. Zaved., Probl. Energetiki*, Nos. 5–6 (2009).

N. M. Fialko, Yu. V. Sherenkovskii, A. I. Stepanova, et al., “Optimizing the Design Parameters of a Boiler Unit's Condensing Heat-Recovery Device,” *Prom. Energ.*, No. 3 (2008).

M. Goff, S. L. Demenok, and S. M. Sivukha, “A Technology for Enhancement of Shell-and-Tube Heat Exchangers,” *Novosti Teplosnab.*, No. 9 (2009).

Yu. M. Gofman, “Factors Causing Damage to the Startup Separators of Boilers,” *Energetik*, No. 2 (2009).

V. I. Gombolevskii, B. P. Afanas'ev, Yu. A. Radin, et al., “Putting Centrifugal-Jet Atomizers in Use in the Deaeration Devices of the PGU-39 Combined-Cycle Plant at the Sochi Thermal Power Station,” *Elektr. Stn.*, No. 5 (2009).

G. Kh. Gumerova, A. V. Dmitriev, and N. A. Nikolaev, “Purification of Low-Head Gaseous Emissions from Power-Generating Units in Vortex Apparatuses Equipped with Rotating Porous Atomizers,” *Prom. Energ.*, No. 6 (2009).

V. A. Khaimov, E. I. Puzyrev, V. N. Kokin, et al., "Separators for Removing Solid Particles from the Hot Reheat Steam Lines of Large Power Units," *Elektr. Stn.*, No. 9 (2009).

Yu. M. Khlebalin, "Application of Jet Compressors for Increasing the Power Output of Industrial-Heating Cogeneration Stations," *Prom. Energ.*, No. 1 (2009).

A. I. Khudyakov and V. A. Khudyakov, "Development of a Plate-Type Heat Exchanger for a Large-Capacity Power Installation," *Tyazh. Mashinostr.*, No. 11 (2009).

R. N. Konovalov and A. V. Agafonov, "The Specific Features of Air Cleaning Systems Used in Small-Capacity Gas Turbine Units Revealed from Test Results and Field Experience," *Gazoturb. Tekhnol.*, No. 5 (2008).

V. K. Konovalov, O. V. Yashkin, and V. V. Ermakov, "Optimizing the Parameters of a System for Pulsed Pneumatic Transportation of Ash from Electric Precipitators at Thermal Power Stations and Putting This System in Operation," *Teploenergetika*, No. 5 (2009) [*Therm. Eng.*, No. 5 (2009)].

S. D. Korneev, L. A. Maryushin, S. Ya. Efendiev, and E. A. Shakirova, "Prospects for Improvement of Evaporating Plants at Thermal Power Stations," *Energetik*, No. 7 (2009).

A. V. Korolev, "Analyzing the Work of a Pressure Shock in Steam-Water Injectors," *Izv. Vyssh. Uchebn. Zaved., Energetika*, No. 2 (2009).

A. V. Koryagin and R. V. Solov'ev, "An Expansion Engine—Generator Unit with Two Intermediate Heating Circuits," *Izv. Vyssh. Uchebn. Zaved., Probl. Energetiki*, Nos. 1–2 (2009).

A. V. Koryagin and R. V. Solov'ev, "Installation of Expansion Engine—Generator Units at the Cogeneration Stations of Industrial Enterprises," *Energosber., Vodopodg.* No. 5 (2009).

V. R. Kovalyukh, "A Universal Automated Vibration System for Uninterrupted Supply of Wet Coal from a Hopper with Any Friability Characteristics," *Elektr. Stn.*, No. 9 (2009).

S. G. Kozlov, A. P. Skuratov, A. I. Suroyakov, and A. A. Belogorskii, "A Supplementary System for Removing Entrainment for Boilers Equipped with Stoker Furnaces," *Energetik*, No. 6 (2009).

A. V. Krylov, "Modernization of the Turbine-Driven Feedwater Pumps Used in the 1260-MW Power Unit at the Kostroma District Power Station," *Energosber., Vodopodg.* No. 3 (2009).

A. O. Kurchev, N. N. Elin, V. E. Mizonov, and V. I. Subbotin, "Mathematical Simulation of the Thermal Process in a Regenerator with Phase-Transition Packing," *Prom. Energ.*, No. 12 (2008).

A. S. Latkin, B. E. Parshin, O. L. Basmanov, and V. V. Korshunov, "Development of Separators for Separating Geothermal Steam—Water Heat Carriers,"

Teploenergetika, No. 8 (2009) [*Therm. Eng.*, No. 8 (2009)].

S. R. Levandovskii and E. V. Afanasenko, "An Analysis of the Thermal Parameters Characterizing the Operation of Self-Bearing Metal Smoke Stacks of Small and Medium Capacity," *Novosti Teplosnab.*, No. 8 (2009).

A. V. Levin and N. N. Laptev, "A System for Electrically Starting a Gas Turbine Unit in Operation," *Gazoturb. Tekhnol.*, No. 3 (2009).

M. Yu. Lifshits, Yu. V. Solodyannikova, and V. V. Solodyannikov, "System Principles of Selecting a Technology for Water Treatment Plants at Thermal Power Stations," *Energosber., Vodopodg.*, No. 5 (2009).

O. V. Mal'khanov, "Energy-Efficient Turbine-Expansion Units Intended for Producing Electric Energy at the Gas Control Points of Thermal Power Stations," *Energosber., Vodopodg.*, No. 1 (2009).

E. M. Marchenko and O. V. Mal'khanov, "Turbine-Expansion Units for Efficient Use of Energy due to Pressure Difference of Natural Gas," *Energosber., Vodopodg.*, No. 4 (2009).

V. E. Mikhailov, "Measures to Prevent Icing of Elements of the Air Intake Path Used in the Gas Turbine Units of Power-Generating Combined-Cycle Plants," *Izv. Vyssh. Uchebn. Zaved., Probl. Energetiki*, Nos. 9–10 (2009).

V. E. Mikhailov, "The Design Features of the Air Intake Path Used in the GTE-65 Gas Turbine Unit Installed at OAO Mosenergo's TETs-9 Cogeneration Station," *Prom. Energ.*, No. 12 (2009).

F. N. Myagkov, M. L. Kostyrev, A. I. Dubaev, and N. V. Motovilov, "Simulation of Pumps with Adjustable Rotation Frequency," *Elektr. Stn.*, No. 6 (2009).

Yu. A. Pechenegov, R. V. Bogatenko, A. V. Kosov, et al., "Parameters Characterizing Throttle-Type Condensate Removers," *Prom. Energ.*, No. 7 (2009).

A. I. Petruchek, "Thermal Calculation of Spray-Ejection Cooling Towers," *Energosber., Vodopodg.* No. 2 (2009).

V. B. Prokhorov, V. K. Konovalov, and V. V. Ermakov, "Studying the Mechanism Governing the Outflow of Ash from a Hopper under Gravity to Optimize the Design of the Assembly Used to Remove Ash from the Electric Precipitator's Hopper into the Transportation Pipeline in the Ash Pneumatic Transportation System," *Energosber., Vodopodg.* No. 4 (2009).

A. Yu. Ryabchikov, Yu. M. Brodov, K. E. Aronson, et al., "Experience Gained from Modernization of Shell-and-Tube Water-to-Water Heat Exchangers," *Energetich. Mashiny, Ustan.*, Nos. 1–2 (2008).

I. A. Sakov, "Application of Variable-Frequency Electric Drives for Controlling the Drain Pumps of Low-Pressure Heaters Used in Turbine Units at Cogeneration Stations," *Teploenergetika*, No. 10 (2009) [*Therm. Eng.*, No. 10 (2009)].

A. A. Salamov, "Air Coolers with Wetted Surface," *Energetik*, No. 12 (2009).

V. P. Semenov and N. I. Platonov, "A Comprehensive Analysis of a Contact Heat Exchanger with Recirculation of Fluid for Recovering the Heat of Flue Gases," *Prom. Energ.*, No. 11 (2009).

V. P. Semenov, N. I. Platonov, and Yu. M. Goldobin, "Thermal Engineering Indicators of a Film Contact Heat Exchanger with Recirculation of Heated Liquid," *Energosber., Vodopodg.*, No. 5 (2009).

G. D. Shekun, "Approximating the Head Characteristics and Characteristic Surfaces of Dynamic Pumps by Means of an Exponential Function," *Teploenergetika*, No. 8 (2009) [*Therm. Eng.*, No. 8 (2009)].

N. S. Shestakov, A. E. Leikam, D. F. Serant, and E. E. Russkikh, "Modern Tendencies in the Development of Coal Gasification Systems," *Prom. Energ.*, No. 2 (2009).

V. G. Shilov, A. V. Knyazev, A. I. Elkin, and P. I. Bazhan, "The Operation of High-Reliable Intensified Shell-and-Tube Heat Exchangers," *Novosti Teplosnab.*, No. 7 (2009).

Yu. V. Solov, V. A. Semashko, V. V. Varnashov, et al., "Making the External Gas Conduits and Smoke Stacks at Thermal Power Stations More Reliable and Environmentally Safer," *Energosber., Vodopodg.*, No. 2 (2009).

R. V. Solov'ev, "Comparing the Operational Efficiencies of Expansion Engine-Generator Units with Different Methods for Heating Gas," *Energosber., Vodopodg.*, No. 6 (2009).

E. V. Somova, V. I. Kisina, A. L. Shvarts, et al., "Studies of a Direct-Contact Feedwater Heater in a Fragment of the Secondary Coolant Circuit of a New-

Generation Reactor Plant," *Teploenergetika*, No. 6 (2009) [*Therm. Eng.*, No. 6 (2009)].

I. I. Strikha, "Operational Reliability of Smoke Stacks," *Novosti Teplosnab.*, No. 3 (2009).

V. B. Tupov and D. V. Chugunkov, "Noise Silencers on Discharges of Steam from Power-Generating Boilers," *Teploenergetika*, No. 8 (2009) [*Therm. Eng.*, No. 8 (2009)].

B. P. Vasil'ev and V. D. Belousov, "Sophisticated Heat-Transfer Equipment for Enterprises of the Fuel-and-Energy Complex," *Tyazh. Mashinostr.*, No. 2 (2009).

V. I. Velikovich, Yu. M. Brodov, and M. A. Nirensh-tein, "Delivery-Water Heaters Used in the Cogeneration Units Produced by the Ural Turbine Works," *Teploenergetika*, No. 9 (2009) [*Therm. Eng.*, No. 9 (2009)].

I. I. Vershinin, "A Pneumatic-Rotor Method for Cleaning Pipes and Heat-Transfer Tubes," *Energetik*, No. 11 (2009).

Yu. V. Vikhrev, "The Development of New Systems for Binding Carbon Dioxide at Power Stations," *Energetik*, No. 5 (2009).

**L. M. Zhivilova, Yu. A. Slobodskaya, D. S. Smet-
nin, and I. A. Orlova**, "Modern Lines of the Develop-
ment of Process Circuits, Equipment, and Systems for
Monitoring and Control of Water Treatment at Power
Stations," *Energetik*, No. 12 (2008).

M. G. Ziganshin and A. V. Dmitriev, "Calculating
the Efficiency of Separating Emulsion Flows in Vor-
tex-Type Apparatuses," *Prom. Energ.*, No. 3 (2009).

V. I. Zvegintsev and I. I. Shabanov, "Experience
Gained with Construction of Pneumatic-Pulse Sys-
tems for Cleaning the Convection Heating Surfaces of
Boiler Units," *Energetik*, No. 1 (2009).
