My article “Commutation Conditions for Hankel Matrices” in *Computational Mathematics and Mathematical Physics*, 2011, vol. 51, no. 7, pp. 1102–1113 contains a typing error: the fifth formula at top of page 1110 should have the form

$$(0, \mathbf{l}_1^T)^T (d_1, \mathbf{l}_1^T P_{n-1}) - \hat{\mathbf{e}}(0, \mathbf{l}_1^T) C(\hat{\mathbf{l}}_1) - \hat{\mathbf{l}}_1(0, \mathbf{l}_1^T P_{n-1}) + C(\hat{\mathbf{l}}_1)(0, \mathbf{l}_1^T P_{n-1})^T \hat{\mathbf{e}}^T = 0.$$
