
ANNOUNCEMENT

**The “Chromosome 2009” Conference
will be held in Akademgorodok, Novosibirsk, Russia on August
31–September 6, 2009.**

DOI: 10.1134/S1062360409030102

The topics include the following aspects:

—heterochromatic regions of chromosomes and chromatin structure;

—chromosome mapping, evolution, and comparative analysis;

—mechanisms of dose compensation and cell division;

— special structures of chromosomes and spatial organization of chromosomes in the nucleus.

All abstracts and selected works presented at the Conference will be published in a special issue of the *Russian Journal of Genetics* in 2009.

To attend, please register at the official Conference site <http://www.chromosome2009.org/en/main.html>.
