1. On p. 436, the last sentence in the left column should read *When using the apatite–collagen material LitAr, the outer cortical plate was regenerated already within eight days (Fig. 6a, thin white layer over the jaw contour) and the frontal region was completely regenerated within five months (Fig. 6b), so that the defect cannot be revealed.*

2. The caption to Fig. 6 should read *Computer tomograms of the jaw defect treated with the apatite–collagen material LitAr within (a) 8 days and (b) 5 months.*
