### Erratum to:

**Eur. Phys. J. C (2019) 79:739**

<https://doi.org/10.1140/epjc/s10052-019-7252-z>

The original version of this article unfortunately contained a mistake. Due to a misunderstanding during the proof correction process, a minus-plus sign had been incorrectly inserted before the first term in the second line of Eq. (22). The correct Eq. (22) is given below.

The original article has been corrected.

$$\begin{aligned}\Gamma_1 &\approx \pm(1 + \lambda^2)\gamma^1 \pm i\lambda \mathbf{1}, \\ \Gamma_2 &\approx \frac{d\lambda}{dz} \mathbf{1} \mp i \frac{d\lambda^2}{dz} \gamma^1,\end{aligned}\tag{22}$$
