Erratum to: Eur. Phys. J. C (2020) 80:241

<https://doi.org/10.1140/epjc/s10052-020-7792-2>

The original version of this article unfortunately contained a mistake. The following sentence was incorrectly rendered by the typesetter:

“The use of the same inputs with different integration kernels in the calculations induces a correlation of $+44a_{\mu}^{\text{had,LO}}$ and $\Delta\alpha_{\text{had}}(m_Z^2)$ uncertainties.”

The correct version is:

“The use of the same inputs with different integration kernels in the calculations induces a correlation of $+44\%$ between the $a_{\mu}^{\text{had,LO}}$ and $\Delta\alpha_{\text{had}}(m_Z^2)$ uncertainties.”

The original article has been corrected.
