<https://doi.org/10.1140/epjp/s13360-020-01050-y>

There is a mistake at the end of equation (4.2a). The final condition should read: if $x < \theta$. On the last page of the article, there is a mistake in the first equation (QED). The last line should read: $(R')^2 = RR''$ in both cases.

The original article can be found online at <https://doi.org/10.1140/epjp/s13360-020-01050-y>.
