<https://doi.org/10.1140/epjs/s11734-021-00268-w>

In the captions of Tables 1–3, the strong coupling value and uncertainty should read  $\alpha_s(m_Z) = (0.1180 \pm 0.0010)$  as correctly stated in the main text. In Table 2, a minus sign is missing for the three-loop correction to  $m_{b, \text{kin}}$ —the correct value is  $-0.002$ . In Table 3, minus signs are missing for the one-loop correction to  $m_{c, \text{RS}}$ , which is  $-0.017$  and the four-loop corrections to  $m_{c, \text{MSR}}$  and  $m_{c, \text{PS}}$ , which should read  $-0.002$  and  $-0.019$ , respectively.

In the new paragraph following Eq. (37), the word “equality” in the second sentence must be replaced by “inequality”.
