Turner JR. Editor's commentary: ethics in clinical research. *Drug Information Journal*. 2012;46(2):155-157.  
(Original doi: 10.1177/0092861512438841)

In the Editor's Commentary for the March 2012 issue, the bold text in the sentence below (from page 156, left column) is incorrect:

Since power is calculated as  $(1 - \beta)$ , the choice of  **$\beta = 1$**  would yield a power of 0.90, typically written as 90%.

The corrected text reads:

Since power is calculated as  $(1 - \beta)$ , the choice of  **$\beta = 0.10$**  would yield a power of 0.90, typically written as 90%.
