Correction: HBeAg mediates inflammatory functions of macrophages by TLR2 contributing to hepatic fibrosis

Xiaoyu Xie^{1,2,3}, Huanran Lv¹, Chenxi Liu², Xiaonan Su², Zhen Yu², Shouyang Song², Hongjun Bian^{1,2}, Miaomiao Tian^{1,3}, Chengyong Qin^{1,2,3}, Jianni Qi^{1,2,3*} and Qiang Zhu^{1,2,3,4*}

Correction: *BMC Med* 19, 1-20 (2021)
<https://doi.org/10.1186/s12916-021-02085-3>

After publication, it came to the authors' attention that after review of the figures in our manuscript [1], Figure 1Q and Figure 2T were displayed incorrectly.

- The p-P65 western blot strip of U937 macrophages (original Figure 1Q) were obtained from an uncorresponding file. Figure 1Q has been amended and the correct version can be viewed as the corrected Figure 1Q.

The original article can be found online at <https://doi.org/10.1186/s12916-021-02085-3>.

- Additionally, in the original manuscript, Figure 2T was incorrectly labelled on the Y-axis as “IL-6 / GAPDH (fold)”. It should be correctly labelled as “IL-6 (pg/ml)”. Figure 2T has been amended and the correct version can be viewed as the corrected Figure 2T.

T

The figures corrected in this erratum do not influence any original conclusions in this study. We apologize for any inconvenience or misunderstanding that the errors may have caused.

Ready to submit your research? Choose BMC and benefit from:

- fast, convenient online submission
- thorough peer review by experienced researchers in your field
- rapid publication on acceptance
- support for research data, including large and complex data types
- gold Open Access which fosters wider collaboration and increased citations
- maximum visibility for your research: over 100M website views per year

At BMC, research is always in progress.
