

REVIEWER ACKNOWLEDGEMENT

Open Access

Thanks to all those who reviewed for *Journal of Medical Case Reports* in 2015

Michael R. Kidd

Contributing reviewers

A peer-reviewed journal would not survive without the generous time and insightful comments of the reviewers, whose efforts often go unrecognized. Although final decisions are always editorial, they are greatly facilitated by the deeper technical knowledge, scientific insights, understanding of social consequences, and passion that reviewers bring to our deliberations. For these reasons, the Editor-in-Chief and staff of the *Journal of Medical Case Reports* warmly thank the 708 reviewers whose comments helped to shape the journal, for their invaluable assistance with review of manuscripts in Volume 9 (2015).
