CORRECTION

Correction to: Metastasectomy for Tumor-Infiltrating Lymphocytes: An Emerging Operative Indication in Surgical Oncology

Joseph G. Crompton, MD, PhD¹, Nicholas D. Klemen, MD², and Udai S. Kammula, MD^{3,4}

¹Department of Surgery, University of California Los Angeles, Los Angeles, CA; ²Department of Surgery, Yale University School of Medicine, New Haven, CT; ³Division of Surgical Oncology, Department of Surgery, University of Pittsburgh School of Medicine, University of Pittsburgh Cancer Institute, Pittsburgh, PA; ⁴UPMC Hillman Cancer Center, Pittsburgh, PA

CORRECTION TO: ANN SURG ONCOL

[HTTPS://DOI.ORG/10.1245/S10434-017-6266-8](https://doi.org/10.1245/S10434-017-6266-8)

In the original article the middle initial of Nicholas D. Klemen was inadvertently omitted.

On the first page of the original article, under the heading A Novel Way to Fight Cancer, there was an error in the third sentence. The corrected text is as follows:

For example, the presence of T cells within tumors of colorectal origin can be a superior predictor of patient

survival compared with the standard histopathologic methods currently used to stage colorectal cancer.^{6,7}

The original article can be found online at <https://doi.org/10.1245/s10434-017-6266-8>.
