ASO VISUAL ABSTRACT

ASO Visual Abstract: Does the Volume-Outcome Association in Pancreas Cancer Justify Regionalization of Care? A Review of Current Controversies

Alexandra W. Acher, MD¹, Sharon M. Weber, MD¹, and Timothy M. Pawlik, MD, MPH, Ph.D²

¹Department of Surgery, Division of Surgical Oncology, University of Wisconsin School of Medicine and Public Health, Madison, WI; ²Department of General Surgery, Division of Surgical Oncology, The Ohio State University College of Medicine, Columbus, OH

This study was a critical review of the volume-outcome association in pancreas cancer surgery (<https://doi.org/10.1245/s10434-021-10765-w>). The authors summarize

evidence supporting this association and discuss areas of ongoing controversy regarding the foundations and implications of regionalization in pancreas cancer surgery.
