Age, race, insurance, and geography are barriers to clinical trial enrollment in a national cohort of pancreatic cancer patients. While more patients enrolled in trials

between 2004 and 2016, black patients and Medicaid patients remain underrepresented (<https://doi.org/10.1245/s10434-021-10868-4>).

FUNDING None.

Poster presentation at the 2021 Society for Surgical Oncology International Conference on Surgical Cancer Care.
