

Second Issue of Journal of Materials Research Published

MRS's New Journal Continues to Draw Enthusiasm from Research Community

The second issue of *Journal of Materials Research* (Vol. 1, No. 2) was published in May featuring 18 articles and two rapid communications. "The flow of manuscripts into the Editorial Office is remarkable," stated MRS President Gordon Pike. "It has been less than one year since the creation of this new journal was announced and manuscripts have been coming in from all areas of the world since then. This clearly demonstrates that *JMR* is providing a much needed and valuable service to materials research. We are encouraged by this response and more enthusiastic than ever about its potential."

Manuscripts are invited for upcoming issues of the Journal. See manuscript preparation instructions in the March/April issue of the BULLETIN. For further information, contact Editor in Chief Charles B. Duke, Xerox Webster Research Center, 800 Phillips Road, 0114/38D, Webster, NY 14580; telephone (716) 422-2109.
